Valleyview's New Fire Engine

Les Urness, Dave Hay, Dale Gervais, Tom Burton, Dale Smith, Roxie Ruff, Bill Smith. Missing George Delorme

Valleyview Volunteer Fire Department's new Fire Engine arrived in December, 2013. Greenview Council recognizes the dedication of the volunteer members, and purchased the 2013 Rosenbauer Engine knowing the importance of adequate modern equipment.

Manager of Protective Services for Greenview, Jeff Francis noted, "There is no rig in the world that can meet the unique needs of every community

so in planning the order of a new engine, it was important to consider the requests of and discussions with the Department members."

Fire Chief Danny McCallum attending the photo opportunity with Council, wanting to express the appreciation of the 20 +- member department for the investment and commitment that Greenview extends to the Valleyview Volunteer Department.

Reeve's Message

Happy New Year to Everyone,

The beginning of this New Year is the beginning of another new chapter for Greenview. With the new hire of a CAO, the departure of the Interim CAO, and the collective new Council ramping up with Budget, Long Term Planning and implementation of the 2014 Strategic Directions Plan, this year promises to be an exciting time of moving forward in a cohesive, progressive manner.

Council and Staff welcome Mike Haugen to Greenview to lead the organization as Chief Administrative Officer. Council recognized the importance of securing an administrative leader that is enthusiastic and prepared for all the hard work and dedication needed to lead the organization now and into the future. Council is confident in Mike's willingness and excitement that he brings to us and we look forward to working with him.

The region has been blasted without much reprieve with winter weather these past few months. We are pleased with our crews and their dedication to keeping our roads and services maintained despite the uncooperative and often trying weather conditions.

Several large capital projects have been proposed for the 2014 construction season. Council is deliberating and prioritizing projects, and working with Administration to plan to best meet the needs and capital requirements of the municipality.

Council will continue to work with our neighbouring communities, Towns, and community groups to achieve sustainability and capacity to the region. Council will continue to service the needs of today while planning for the needs of the future.

On behalf of Council, I wish you a healthy and prosperous 2014. We encourage you to tune in on our Live Internet Web Stream to listen and watch our public meetings. Visit our website and on the front page is a link that will take you to the meeting stream. All of our public meetings are streamed on the Internet and we welcome your participation.

Dale Gervais,
Reeve, MD of Greenview

Greenview Welcomes New Chief Administrative Officer

Council is pleased to welcome Mr. Mike Haugen to Greenview as the new Chief Administrative Officer (CAO). Beginning the third week of January, Mike's made his first public appearance as CAO at the Committee of the Whole in Grande Cache.

Michael Haugen comes to us from Clearwater County in Rocky Mountain House where he was the Director of Community & Protective Services since 2008. Prior to this, Mr. Haugen was the CAO for the Village of Caroline in Clearwater County between May 2006 and June 2008, and a Municipal Intern at the Town of Chestermere from May 2005 to May 2006.

Mr. Haugen's professional and educational credentials include the Certified Local Government Manager designation, NACLA Levels

1 and 2 from the University of Alberta, a Bachelor of Arts Degree in Political Science from the University of Alberta and a Certificate in Globalization & Governance, also from the University of Alberta.

Mr. Haugen will quickly become actively involved in the community and has been a volunteer coach in rugby circles in the province for many years. Coaching is an area of significant interest for Mr. Haugen, and he plans to actively participate in the coaching community upon his arrival in Valleyview.

Council is excited to have Mike join Greenview. We are looking forward to the strong leadership and enthusiasm that Mike brings with him to serve as the Chief Administrative Officer. Council and Staff are looking forward to working with Mike in his new role as CAO for Greenview.

Elk Populations Costly for Farmers

Greenview is not alone in the balancing act of protecting herd populations of wildlife, and the cost to farmers and ranchers of these foraging herds.

Elk are damaging fencing, and pillaging feed yards and grazing lands, costing farmers and threatening the viability of the farming industry. Elk have come out of the bush in herds measured in hundreds, and have moved into fields and feed yards in many parts of the municipality.

Farmers and ranchers, including members of the Agriculture Services Board have expressed concern over the rampaging elk, and Greenview is working with AESRD and stakeholders to explore impact reduction programs that will help create a balance for the herds and for farmers/ranchers. Producers are frustrated but realize that this issue is complex and requires cooperation from the Province, Greenview and the producers themselves.

Compensation for damage of stacked hay is a federally and provincially funded program. Producers pay no premium or administration costs. The program provides compensation for losses on stacked hay due to damage by ungulates (white tailed deer, mule deer, elk, moose or antelope).

How is compensation determined?

An AFSC adjuster will inspect all damaged hay to determine losses. Compensation will be determined by multiplying the quantity of damaged hay by the higher of:

- the highest price option offered under the current year's production insurance contract for hay; or
- the price offered under the "Variable Price Benefit" for hay, which is determined in the fall.

Before a claim will be paid, a provincial FW Officer must visit the site. During this visit, the FW Officer will provide the producer with appropriate recommendations to prevent future damage. If the producer has a second claim, the minimum recommendations made by the FW Officer during the first claim must have

been implemented to again be eligible for a full claim. If the recommendations have not been followed, the producer is only eligible to receive 50 percent of the claim amount. On third and subsequent years, if minimum recommendations are not followed, no claim will be paid.

Eligibility Criteria:

- Hay must be stacked and stored at sites that can be regularly monitored by the producer.
- The producer must allow access to hunting.
- The producer must notify a provincial Fish and Wildlife (FW) Officer (Alberta Sustainable Resource Development) of the damage. The FW Officer will recommend appropriate damage prevention measures.

Things to remember

- you are not required to have hay insurance to qualify for a wildlife damage claim on stacked hay;
- there must be a crop loss of \$100 before compensation is awarded;
- the maximum compensation is \$5,000 per inspection; and
- a non-refundable appraisal fee of \$25 is required for each section of land (or portion thereof) on which damage has occurred.

So, how do I file a wildlife claim for damage on stacked hay?

It is important that you contact your district office as soon as possible after first noticing damage to request an inspection. You must also notify a FW Officer who will provide preventative recommendations. Claims filed over the winter (in most cases) will not be finalized until all damage has ceased.

For more information, contact your nearest AFSC Office, or visit www.afsc.ca for more information.

Please watch our website for further information and updates from pending meetings between producers, the province and Greenview.

Attention Equipment And Gravel Truck Owners

TENDER FOR 2014/2015 EQUIPMENT RENTAL RATES

The Municipal District of Greenview is inviting Equipment Owners and Gravel Truck Owners to submit rental rates for their equipment. A list will be approved using these bids and this will provide the basis for rental equipment hiring for one year from April 1, 2014 to March 31, 2015.

The M.D. requests quotations for, but not limited to, the following types of equipment:

- | | |
|-------------------------------|--------------------------------------|
| 1) All sizes of Gravel Trucks | 8) Steamers |
| 2) Crawler Tractors | 9) Water Trucks |
| 3) Excavators | 10) Mobile Welding Units |
| 4) Compaction Equipment | 11) Vacuum Trucks |
| 5) Loaders/Backhoes | 12) Snow Removal Equipment |
| 6) Motor Graders | 13) Skid steer |
| 7) Motor Scrapers | 14) Brush and Tree Removal Equipment |

Bids must be on M.D. forms and include all necessary material.

Deadline for receipt of SEALED BIDS marked "CONFIDENTIAL" to the Operations Building is Friday, February 21, 2014 at 2:00 p.m.

Return packages to:

M.D. Operations Office
4802 - 36 Avenue, Box 1079
Valleyview, Alberta T0H 3N0

Please direct inquiries to Patricia Biggin, Administrative Support, Operations at 780-524-7611 or at patricia.biggin@mdgreenview.ab.ca
Bid packages may be mailed (**will only be mailed if requested**) or picked up at:

M.D. of Greenview No. 16
Operations Office
4802 - 36 Ave
Valleyview, AB

M.D. of Greenview No. 16
Grovedale Sub-Office
Lot 9, Block 1, Plan 0728786
Grovedale, AB
Open on Tuesdays and Wednesdays

911

Fire • Police • Ambulance

In most cases, there is no charge in calling 911.

Rumors have been circulating that if you call 911 requesting Fire & Rescue that you will be billed. This is incorrect.

Be sure to call 911 in an emergency!

Little Smoky Potable Water Point

December 31, 2013 MD Greenview opened to the public a potable water facility for surrounding Little Smoky residents and businesses. The 50 cubic meter facility is a reverse osmosis treatment that meets and exceeds Canada Drinking Water Guidelines. To set up an account to access the facility, please call the MD administrative office at 780-524-7600.

Emergency Car Kit

The following list of supplies kept in your emergency car kit will serve you well if an adverse situation arises in your automobile.

Basic Auto Emergency Kit

Keep these items in a bag in your trunk:

- Battery-powered radio, flashlight, and extra batteries
- Blanket
- Booster cables
- Bottled water and nonperishable high-energy foods such as granola bars, raisins, and peanut butter
- Fire extinguisher (5-lb., A-B-C type)
- First-aid kit and manual
- Maps, shovel, flares
- Tire repair kit and pump
- Spare tire

For Winter Driving

- A snowbrush and ice scraper
- A bag of sand to help with traction
- Extra windshield fluid
- A blanket, just in case
- Old winter boots and clothes for the trunk

A Few Winter Driving Tips

- Keep your gas tank filled above halfway to avoid emergencies in bad weather.
- Stuck on the ice without sand or cat litter? In a pinch, you can take the mats out of your car, place them next to the tires, and slowly inch the car onto and across the mats.
- To restore proper windshield wiper blade action, smooth the rubber blades with fine sandpaper to remove any grit and pits.
- Gently rub a small, moistened, cloth bag of iodized salt on the outside of your windshield to prevent the ice and snow from sticking.
- Fog-proof your mirrors and the inside of your windshields with shaving cream. Spray & wipe if off with paper towels.
- Avoid driving when you have the flu, which can reduce your reaction time almost six times as much as moderate alcohol intake.

If it's balmy all winter where you live, be thankful that you don't need all of this stuff! To see if snow and ice are predicted in your area, see your free two-month long-range forecasts or check out your local 7-day forecasts.

Green View Community Resource Center Making a Difference in our community.

Our employment center has expanded!

We are now offering:

- Computer Basics: teaches basic building blocks for the office and home; basics of social media – work at your own pace in a comfortable relaxed atmosphere. Begins January 30th Call to register

New Home Warranty Program

The Government of Alberta introduced new legislation, the New Home Buyer Protection Act, in 2012, which mandates the requirements for new home warranties. This new legislation will come into effect on February 1, 2014.

What is New Home Warranty?

New home warranty is an assurance from a builder that the new home is reliable and free from known defects and that the builder will, without charge, repair or replace any defects which arise within a given period of time and under certain conditions.

Under the proposed legislation, all new homes would at minimum, include a warranty for:

- one year labour and materials;
- two years for defects in labour and materials related to delivery and distribution systems;
- five years building envelope protection, with a requirement for the warranty provider to offer the consumer the option to purchase additional years of coverage; and,
- 10 years coverage for major structural components.

What types of homes would be subject to this legislation?

This proposed legislation is for single-family homes, condominiums, modular homes, mobile homes, and dwellings on recreational properties. It will not apply to dorms, work camps, hotels and rental apartments.

How does the new legislation effect you?

Mandatory warranty coverage applies only to new home construction and substantial renovations performed under building permits applied for after February 1, 2014. The New Home Buyer Protection Act will require homebuilders to provide proof of warranty coverage before building permits for new homes will be issued in Alberta.

For more information regarding the New Home Warranty Program, visit www.mandatorywarranty.com

Employment Opportunity

Fire Guardian

Job Classification: Natural Resources 3
Salary Range: \$21.29 - \$26.22 per hour
Length of employment: Start Date: February 18th until – October 31st, 2014.
Deadline for application: N/A

Do you want to educate the public about safe burning practices and changing fire hazard conditions? Would you like to inspect permit request sites, issues permits, and pass fire permit locations to lookout towers?

If so, a Fire Guardian position may be an ideal seasonal position for you.

A Fire Guardian is required to perform a variety of duties. Some of the duties include inspecting fire permit request sites, issuance of fire permits in the Area, educating rural residents about the safe burning practices and changing hazard conditions, and assisting the Area with Wildfire Prevention activities.

Minimum Education & Experience Required

The successful candidate must be at least 18 years of age and must have:

- High school diploma.
- Valid First Aid Certificate with CPR
- Valid Defensive Driving Certificate

Completion of a fitness test is required.

Issuance of fire permits in the Area and ensures the fire site will be safe and not escape fire permit legal land location.

- Inspection of permit request sites and approves burning only under safe conditions.
- Pass fire permit locations to the lookout observers.
- Educate rural residents about safe burning practices and changing hazard conditions in a professional, friendly and courteous manner.
- Assist the Area with the Wildfire Prevention activities and make recommendations on improving the prevention program.

The position is based out of the Valleyview Provincial Building (Forest Protection office). The hours of work are Monday to Friday 08:15 – 4:30p.m. In order to represent the government in a professional manner the successful applicant is issued a uniform and a government truck for the season.

For more information please contact Mike Kingsbury at (780) 832-7601.

Applications can be e-mailed to Mike.Kingsbury@gov.ab.ca or can be mailed or dropped off in person at either the Valleyview Forest Protection Office or the Grande Prairie Fire Center
