ALBERTA MUNICIPAL AFFAIRS APPROVED ACCREDITED AGENCIES

Updated: August 2017

The following is a current listing of various agencies that issue **Building, Electrical, Plumbing, and Gas Permits.**

You may choose to ask one of the accredited agencies listed below to provide you with the required permits.

What type of work requires a permit?

The Safety Codes Act requires that all contractors and homeowners in Alberta obtain permits prior to commencing work on buildings covered by the Alberta Building Code or work governed by the Canadian Electrical Code, the Alberta Gas Code or the Alberta Plumbing Code.

Benefits of obtaining a permit:

The major benefits of obtaining a permit is knowing that the installation will conform to the safety standards that have been adopted under the Safety Codes Act, and that inspection(s) will be provided by certified Safety Codes Officers.

Bulletin 2012-20

September 20, 2012

Directive 079: Surface Development in Proximity to Abandoned Wells in Support of the Subdivision and Development Regulation Amendment

The Energy Resources Conservation Board (ERCB) announces the release of *Directive 079: Surface Development in Proximity to Abandoned Wells*, which establishes new requirements targeted at proponents of surface developments, municipal officials, planners, development officers, and the oil and gas industry. The directive sets out requirements in support of an amendment by Alberta Municipal Affairs to the *Subdivision and Development Regulation*, which requires proponents (developers and property owners) of a subdivision or development to identify the locations of abandoned wells during planning and to appropriately locate them within proposed areas of surface development. The directive also establishes requirements for licensees of abandoned wells to provide information and support to proponents of a subdivision or development and to follow an established well locating and testing protocol for abandoned wells near existing and proposed surface development.

Key Features of the Directive

- Information about abandoned wells and how to identify their locations
- Instructions on obtaining abandoned well information from the ERCB using the newly developed Abandoned Well Viewer available on the ERCB website www.ercb.ca
- Requirements that proponents of a subdivision or development must follow, including setback requirements around abandoned wells
- Requirements that licensees of abandoned wells must follow, including using the well locating and testing protocol detailed in the directive
- Contact information

Additional Information

Directive 079 is available on the ERCB website www.ercb.ca. Printed copies of the directive may be purchased from ERCB Information Services, Suite 1000, 250 – 5 Street SW; telephone: 403-297-8311 or 1-855-297-8311 (toll free); fax: 403-297-7040; e-mail: infoservices@ercb.ca.

The amendment to the *Subdivision and Development Regulation* is available on the Municipal Affairs website www.municipalaffairs.alberta.ca.

Questions or comments about this bulletin or *Directive 079* may be submitted to directive079@ercb.ca.
