

The charter bus company will be following the COVID protocol which will include the following:

- The bus will run at 50% passenger capacity, therefore there will be room for 23 passengers. There are usually never this amount of passengers on the bus.
- The washroom will not be available for use.
- Hand sanitizer will be used each time the passenger is off or on the bus.
- The bus will have received a “fog disinfectant” application of vital oxide prior to each trip.
- Masks must be worn.

The bus service will continue until such time that Alberta Health Services changes the regulations for chartered bus transportation whereby it will be not possible to provide the service.
