## INFORMATION:

- REVIEW** acceptable materials included in curbside commingled recycling program on the back of the page.
- CLEAN** recyclables & ensure they are dry.
- BLUE BAG** all recyclables together. Overflow items will not be accepted.
- SET** your Recycle Cart curbside every 2nd Monday by 7:00 am for GFL to continue to pick up recycling.
- ENSURE** wheels are touching curb.
- MUST HAVE** 6 feet of clearance on all sides of the car, such as parked cars, etc.

# ACCEPTABLE RECYCLING ITEMS

## ACCEPTED ITEMS:

These items go in your blue bag.

No sorting required.

Ensure that items are clean & dry.

No food stuck in container.

## CONTAINERS

- ✓ **Tin/Steel Food Cans**  
Labels are not required to be removed.
- ✓ **All Beverage Containers**
- ✓ **Plastics #1 & 2**  
Molded, rigid plastic containers & tubs with lids grade 1 & 2 only. All must be rinsed (i.e. detergent bottles, yogurt containers, condiment containers, plastic medicine bottle, etc).

## PAPER

- ✓ **Office paper**
- ✓ **Newspaper**
- ✓ **Flyers**
- ✓ **Mailed paper**  
Envelopes, magazines, catalogues, corrugated cardboard, boxboard (for example cereal boxes (no liners) & door to door shipped boxes).

### Q: What are plastics #1 & #2

Polyethylene terephthalate (PETE) is a clear or green, glossy, rigid container:

- ✓ Clear and green soda bottles
- ✓ Cooking oil bottles
- ✓ Peanut butter jars (recyclable if clean)
- ✓ Salad dressing bottles and other food and drink containers (recyclable if clean).

High density polyethylene (HDPE) is also a hard plastic but is visibly different from PETE, as it is not transparent. It is usually milky or solid colors & rigid containers.

- ✓ Milk jugs and yogurt or margarine tubs (recyclable if clean).
- ✓ Detergent bottles, shampoo bottles, and other containers (recyclable if clean).
- ✓ Some plastic bags

### Q: Do we need to pull off the small plastic bits from some fibres products, such as envelopes, Kleenex boxes, toy boxes?

**A:** Residents do not need to remove these small bits of plastic. If residents choose to do so, it is welcome but not mandatory.

### Q: What about soft cover books? Hard cover books?

**A:** Please remove the book covers (as many are plasticized).

### Q: What about photos?

**A:** Not recyclable.

### Q: Flour bags, pet food bags (empty)?

**A:** Any paper container that contained a food item should not be put into the recycling. These paper containers (coffee cups, flour bags, pet food bags etc) often have a plastic or other material like aluminum laminated onto the inside of the paper; and often have food residue left in them as well. Either case makes the material non-recyclable.

### Q: Tin and aluminum food plates?

**A:** There is a high likelihood these items have food residue remaining on them, also they are often a laminated material that is not purely tin/aluminum. Only if the item is purely tin/aluminum and fully cleaned is it acceptable.
