SUBJECT: Delegation-Grande Prairie and Area Council on Aging-Seniors Outreach

SUBMISSION TO: GREEN VIEW FAMILY AND REVIEWED AND APPROVED FOR SUBMISSION

**COMMUNITY SUPPORT SERVICES** 

**BOARD** 

MEETING DATE: December 16, 2021 GM: MANAGER: LDH
DEPARTMENT: GREEN VIEW FAMILY AND PRESENTER: LDH

**COMMUNITY SUPPORT SERVICES** 

**RELEVANT LEGISLATION:** 

Green View FCSS Policy: N/A

### RECOMMENDED ACTION:

MOTION: That Green View Family and Community Support Services Board accept the presentation from the Grande Prairie and Area Council on Aging-Seniors Outreach, for information.

# BACKGROUND/PROPOSAL:

Green View FCSS has supported Seniors Outreach of Grande Prairie for over 10 years. The purpose of the Seniors Outreach Program is to aid seniors with any needs they may have. The organization provides up to date information and resources for seniors, caregivers, professionals or anyone with an interest pertaining to seniors.

### BENEFITS OF THE RECOMMENDED ACTION:

1. The benefit of accepting the presentation is to update the Board on services provided by Seniors Outreach.

# DISADVANTAGES OF THE RECOMMENDED ACTION:

There are no perceived disadvantages to accepting the presentation.

# **ALTERNATIVES CONSIDERED:**

**Alternative #1:** The Green View Family and Community Support Services Board may choose not to accept the presentation for information. This alternative is not recommended for if the Board is aware of what services are being delivered and how the funds are being utilized; the Board will be well informed and better able to make funding decisions in the future.

FINANCIAL IMPLICATION:

**Direct Costs: N/A** 

# Ongoing / Future Costs: N/A

STAFFING IMPLICATION: N/A

# PUBLIC ENGAGEMENT LEVEL:

Greenview has adopted the IAP2 Framework for public consultation.

# **INCREASING LEVEL OF PUBLIC IMPACT**

Inform

# **PUBLIC PARTICIPATION GOAL**

Inform - To provide the public with balanced and objective information to assist them in understanding the problem, alternatives, opportunities and/or solutions.

# **PROMISE TO THE PUBLIC**

Inform - We will keep you informed.

Please attach additional documentation that supports your application and include work description or details, other funds source, event or program timeline, estimates, a detailed budget, expected results and benefits to the Municipality in relation to this project.

### By signing this application, I/we concur with the following statements:

- \* The grant application is complete and includes all supporting documentation, including most recent financial statements based on legislative requirements of our organization, balance sheet, current bank balances and current year detailed operating budget.
- \* The grant shall be used for only those purposes for which the application was made. If the original grant application or purposes for which the grant requested have been modified by the Green View FCSS board; the grant will be used for those varied purposes only.
- \* The organization will provide a written outcomes report to the Green View FCSS office, along with an expense report, within 30 days of completion of the grant.
- \* The organization agrees to submit to an evaluation of the project related to the grant.
- \* The organization will return any unused portion of the grant funds to Green View FCSS or to request approval from the FCSS Board to use the funds for an optional project.

### **GRANT INFORMATION**

## **Total Amount Requested**

\$30,000.00

Please note for all grant applications over \$2,500, the applicant must make a presentation to the FCSS Board.

# **Proposed Project**

To offer the Seniors Outreach program to Grande Prairie and Area. To give information and support to Valleyview and area. To collaborate with FCSS, Homecare, Clients, Senior's and their families and anyone who has an invested interest in assisting a senior to receive up to date information on pensions, grants, and benefits. To help keep them safe and independent and accessing all the benefits and information. When a client is in crisis we help to problem solve with them to alleviate the problem.

2020 & 2021 have been a challenge. The Seniors Outreach program is considered an essential service. Due to Covid 19 this past year and a half we have had to deliver our service in a new way. Mid March 2020 we closed the office to the public due to the pandemic and the vulnerable sector that we serve. However, we did need to continue to be able to offer seniors services help and support. We were able to continue to do taxes and applications and offer support and updates regarding the pandemic and seniors safety. We look forward to opening up our doors soon, with the increased numbers of baby boomers we are projecting an increase in seniors who will need our services therefore we need to increase our staff which will be possible with funding.

How will this project be preventative in nature?

We have found that by keeping seniors informed on all the benefits available to them, that they are able to stay independent and in their own homes longer. We have found that seniors are less stressed and relieved when there are benefits and agencies to help them with their questions and needs. During the pandemic seniors were required to stay home to help stop the spread of covid 19. We offered our service over the phone and through the mail slot of our office.

By being a resource for seniors, their families, caregivers and support agencies, we are able to help seniors navigate the available pensions, grants and programs available to assist them in remaining independent and in their own homes longer. We have tried to help alleviate the stress of unfamiliar paperwork and apprehension of 'government paperwork' - people do not want to fill out their forms incorrectly.

The "Baby Boomers" are hungry for information on benefits available to them. We are able to guide them through the retirement process and inform them on what benefits they can expect.

We are the contact for Elder Abuse in North West Alberta. We give information and support to seniors on issues of Elder Abuse and Scams. Scams have been on the rise and we receive many calls from clients saying that they received a threatening call saying that they owe money (example Revenue Canada). This can be very stressful for the senior. Unfortunately scams are on the rise and our senior population can be very vulnerable. We have dealt with clients from the Greenview area regarding Elder Abuse from family members and have also given information on scams. We presented along with the RCMP a presentation of scams and abuse at Sturgeon Lake. Those that attended were happy to get the information.

Prevention is important because if they are informed of the dangers of scams they can be prepared if they get the call.

Who will be served by the project/ program and how many people do you expect will attend this event (if relevant)? The Seniors Outreach program is open to anyone that needs the information or services provided to help seniors. It may be seniors, family members, caregivers, support workers and the public.

In 2020 we had 250 new clients. That is an average of 21 new clients a month. The Baby Boomers are here! This number represents how many files were started when someone comes into the office and is helped by one of the outreach workers. We had over 6619 phone calls and over 2786 walk in clients. We support caregivers, family members, social workers in the area so that they are able to help their loved ones or clients.

Please click on attachments.

During 2020 tax season, surveys were done and we had 51 clients live in the MD of Green View. Out of those 51 clients, 25 of them were female and 26 were male. These clients ranged in age from 35 to 93 and the majority of those clients drove themselves to see us. Please note that these numbers show the clients that used our program March - end of May and does not include the many clients that use our program the rest of the year.

# How will this program benefit the community?

This program is very much a benefit to the community as it helps seniors to be informed and receive all the benefits, grants, support and information that is available, this allows them to make decisions that assist them to remain as independent as possible. When a senior feels happy, heard and supported they tend to participate in creating a healthy vibrant community around them, and by doing so the circle is completed, both the Senior and the community prosper.

Although 2021 has continued to be a year of many challenges and changes, we are happy to report that we are here and still able to help the seniors just in a different way. We have found that the seniors are still happy to call us and have their needs met over the phone. We have staff that go above and beyond. We are able to assist filling out forms and answering questions over the phone. We have filled out forms and given them to client through our mail slot to sign. It has been a challenge but we are finding a way to make it work. Our goal is to keep seniors safe, informed, and on all benefits available to them.

How will you recognize the contribution from Green View FCSS to your organization and in the community? We continue to note the contribution of FCSS funds at every opportunity. We have acknowledgment in our brochures and any printed publications that we make up. We have acknowledged Green View FCSS as a funder on our web page. And of course, word of mouth to our clients and at presentations to the community.

We are always available to assist the Valleyview FCSS program with any needs or questions they may have and very much enjoy the relationship we have of working together with the best interest of our clients.

# How will this program be measured for success?

Feedback from seniors, clients, caregivers and people that have used this program indicate that it has made a difference in their lives to have information and assistance needed. Seniors were surveyed over and over again, and firstly they want good medical and hospital care, next was safe and affordable housing, and thirdly to have One Place to go to have their questions and needs met. We are able to help with that need.

In 2020 Seniors Outreach saw 1963 individual clients at least once. Most of the clients that come to apply for benefits at our office return as phone calls and follow up calls to government to check of the processing of applications. Government is sometimes up to a year behind in processing applications.

We had 250 new clients to our office. That is an average of 21 new clients per month.

Seniors Outreach had over 2786 people recorded as walking through our door, and we also responded to over 6619 phone calls.

We do surveys and counts to get these numbers.

Lisa Hannaford, FCSS Director Family & Community Support Services (FCSS) Municipal District of Greenview #16 Box 1079 Valleyview, AB T0H 3N0

Please find to follow our completed Proposal package for the Grande Prairie & Area Council On Aging, Seniors Outreach Program.

We would like to thank the Municipal District of Greenview #16 for continuing to contribute towards our Seniors Outreach Program. We see many clients from your district and are happy to be able to serve them.

The Seniors Outreach Program has been in existence since 1982, after a need was established that seniors needed a One Stop Shop, one place to go to have all their questions and needs met. This program supports the ability to live independently. The program identifies the gaps and trends and adjusts to provide up to date information and assistance on benefits, grants, and resources seniors need to live in the community on a healthy, beneficial, informed style.

By assisting and keeping seniors informed of the benefits and information needed to keep them independent and perhaps in their own homes longer has proved to be a benefit not only to the senior, but also to the community. We provide a resource for family, caregivers, professionals and collaborate with anyone that has an interest or link to a senior. Together we have a voice in the community for our seniors.

When a senior is in crisis, we problem solve with them to come up with a solution. This is done daily with clients: often until a crisis affects you it is hard to understand the need for such a service. Word of mouth and steady increase of clients has proved the important need and role Seniors Outreach has in our communities. When senior turns 65 none of the benefits, pensions, grants come automatically. They all need to be applied for. Helping seniors to be sure that they are on everything they are entitled to keeps them informed and less stressed. People of the age of 65 no longer qualify for AISH or Social Services, and for some that has been the support they always had is no longer available to them.

The last year during the pandemic it has been a challenge to say the least. We have managed to help our seniors through the door slot and over the phone. We had over 6000 phone calls and close to 3000 items put through the mail slot. Seniors were told to stay home and stay safe! We were

able to support them and keep them safe, and still able to inform them on all benefits and grants needed to keep them independent and in their own homes. We were able to help strengthen their coping skills during such stressful times. Our seniors were more resistant to crisis due to the support of the Seniors Outreach Program.

Seniors Outreach is here to support the increased need of information for seniors to continue to live independent and in their own homes. We know that the increase of seniors is happening now, we expect our senior population to double and triple in the next few years. We need to continue to expand programs that support seniors to prevent a crisis when the supports are not in place.

Thank you for your continued support.

Respectfully yours,

Sherry Dennis

# uess how much money we helped put back int the MD of Greenview?

Between March 1<sup>st</sup> to April 30<sup>th</sup>, 2021, our volunteer income tax program at Seniors Outreach completed 1243 tax filling that helped community members receive...

\$13,824.53 in GST

\$50,656.00 in AISH

\$64,829.14 in Alberta Seniors Benefit

\$208,875.96 in Guaranteed Income Supplement

\$39,821.29 in Tax Refunds

That's \$378,006.92!

| It can be very stressful for family members or caregivers the it is family that ends up paying rents, presecriptions and or offers support to help develop independence, strenthan co  | ther expenses until all th   | ne paperwork gets straigtned out. Seniors Outreach  |
| Things have been so different for Seniors the last year duclosed to the public. We have been working over the ph have asked me before if I thought the seniors would adjures lient the seniors have been. Since they were the most This is so hard. They still had to do all the paperwork recovere isolated with out even family visits. Seniors Outreact conversations to assure the seniors that they were okay needed. Seniors Outreach was an essential service during that did their taxes with us received back \$378,006.92 backs. | one and through our must to do this, I would he st vulnerable population quired to receive all of the was able to continuand we would get then be this pandemic. We do | hail slot, passing papers back and forth. If you would ave said no. I am amazed at how adaptable and in and they were told to "Stay Home and Stay Safe". Their benefits and to stay independent. Lots of Seniors is a relationship over the phone. We were able to have in connected to whatever service they may have completed 1243 tax returns total. Seniors of Greenview |
|  |  |   |

### CONTINUOUS QUALITY IMPROVEMENT

After analyzing the data, would you like to continue with this project? Why or why not?

Yes! This is such a valuable program for our seniors to help keep them independent and informed of the resources available to them. We strive to keep seniors independent and in their own homes longer. We have so many "Baby Boomers', new seniors that are needing informantion and navigation into the system to receive benefits and information. Looking at the latest polls, our seniors numbers are going to be doubling and tripling in the next few years. Due to the Baby Boomers which is a very large population, we also have people living longer. This is resulting in the rise in our senior population growing very rapidly.

What improvements could you make to the project?

We are in need of increasing our staff. During Covid 19 our doors were closed to the public and we continued to offer our services through the door and over the phone. We did this with 1 Executive Director, 1 Outreach Worker and 1 Office Administrator. We are a strong team, however, with the increased number of seniors we need to expand to be able to handle the needs.

What improvements could you make to the outcome measurement process?

We have found that now we have our outcome information. We are able to use the information for multiple programs as long as everyone does not keep changing the formats so that every year we need to figure out how to report them.

| Successes:   |   | Changes to be made:             |                        |  |
|--|---|---------------------------------|------------------------|--|
| Our client numbers continue to increase and our positive feedback shows us the need. With Covid 19 restrictions starting to relax we are now able to go out into the community again!! We are in Grande Cache and Valleyview next month! |   | Increase staff                  |                        |  |

### **Green View FCSS**

Municipal District of Greenview No.16 Box 1079, Valleyview, AB TOH 3NO Phone: 780.524.7603 Fax: 780.524.4130

# **GREEN VIEW FCSS GRANTS PROGRAM**

# **Guidelines and Eligibility Criteria**

Grants are accepted by the Green View FCSS Board between July 1st and August 31st of each year.

# Eligibility

To qualify for support under this program, the proposed project shall be preventive in nature in order to:

- ➤ Enhance, strengthen and stabilize family and community life;
- ➤ Improve the ability of persons to identify and act on their own social needs;
- → Help avert family or community social breakdown;
- → If early symptoms of a social breakdown appear; help prevent the development of a crisis that may require major intervention or rehabilitative measures; or
- Promote, encourage and facilitate voluntarism and the use of volunteers.

# Ineligibility

Projects are not eligible for support if they:

- Primarily provide for the recreation needs or leisure time pursuits of individuals;
- ➤ Are primarily rehabilitative in nature;
- → Offer direct financial assistance to sustain individuals or families; or
- Duplicate existing services in the community.

# **Reporting Requirements**

In addition to a final expense report; grant recipients are required to submit an outcomes report that shall consist but not be limited to the following:

- a) Project objectives and outcomes achieved
- b) Number of volunteer hours
- c) Detailed accounting of grant funds
- d) Applicable statistics

Expenses and outcomes reports must be submitted to Green View FCSS annually or within 30 days of the completion of the program/project. Failure to submit the appropriate documentation may lead to the organization being ineligible to apply for future grant funding. The Outcomes Report format can be found in the Green View FCSS page, next to this application package.

Successful grant applicants will be required to only utilize the grant funding for the purposes intended unless authorized in writing by the Green View FCSS Board.

SUBJECT: Delegation-PACE (Providing Assistance, Counselling & Information)

SUBMISSION TO: GREEN VIEW FAMILY AND REVIEWED AND APPROVED FOR SUBMISSION

**COMMUNITY SUPPORT SERVICES** 

**BOARD** 

MEETING DATE: December 16, 2021 GM: MANAGER: LDH
DEPARTMENT: GREEN VIEW FAMILY AND PRESENTER: LDH

COMMUNITY SUPPORT SERVICES

**RELEVANT LEGISLATION:** 

Green View FCSS Policy: N/A

### RECOMMENDED ACTION:

MOTION: That Green View Family and Community Support Services Board accept the presentation from PACE (Providing Assistance, Counselling & Information) as information.

# BACKGROUND/PROPOSAL:

Pace (Providing Assistance, Counselling & Information), based out of Grande Prairie, provides a range of crisis intervention support and counselling services dealing with sexual abuse, sexual assault, child abuse, and trauma. The organization also offers training designed for community members, professionals, students, first responders and frontline workers in our area.

### BENEFITS OF THE RECOMMENDED ACTION:

1. The benefit of accepting the presentation is to update the Board on services provided by PACE (Providing Assistance, Counselling & Information).

# DISADVANTAGES OF THE RECOMMENDED ACTION:

There are no perceived disadvantages to accepting the presentation.

# **ALTERNATIVES CONSIDERED:**

**Alternative #1:** The Green View Family and Community Support Services Board may choose not to accept the presentation for information. This alternative is not recommended for if the Board is aware of what services are being delivered and how the funds are being utilized; the Board will be well informed and better able to make funding decisions in the future.

FINANCIAL IMPLICATION:

**Direct Costs: N/A** 

# Ongoing / Future Costs: N/A

STAFFING IMPLICATION: N/A

# PUBLIC ENGAGEMENT LEVEL:

Greenview has adopted the IAP2 Framework for public consultation.

# **INCREASING LEVEL OF PUBLIC IMPACT**

Inform

# **PUBLIC PARTICIPATION GOAL**

Inform - To provide the public with balanced and objective information to assist them in understanding the problem, alternatives, opportunities and/or solutions.

# **PROMISE TO THE PUBLIC**

Inform - We will keep you informed.

Please attach additional documentation that supports your application and include work description or details, other funds source, event or program timeline, estimates, a detailed budget, expected results and benefits to the Municipality in relation to this project.

### By signing this application, I/we concur with the following statements:

- \* The grant application is complete and includes all supporting documentation, including most recent financial statements based on legislative requirements of our organization, balance sheet, current bank balances and current year detailed operating budget.
- \* The grant shall be used for only those purposes for which the application was made. If the original grant application or purposes for which the grant requested have been modified by the Green View FCSS board; the grant will be used for those varied purposes only.
- \* The organization will provide a written outcomes report to the Green View FCSS office, along with an expense report, within 30 days of completion of the grant.
- The organization agrees to submit to an evaluation of the project related to the grant.
- \* The organization will return any unused portion of the grant funds to Green View FCSS or to request approval from the FCSS Board to use the funds for an optional project.

#### **GRANT INFORMATION**

#### **Total Amount Requested**

\$18,000.00

Please note for all grant applications over \$2,500, the applicant must make a presentation to the FCSS Board.

#### **Proposed Project**

The MD of Green View FCSS funding of \$18,000 is requested to support two Pace programs.

#### Sexual Violence Awareness Program

The goal of this program is to increase community members (children, youth, &adults) knowledge of Sexual Violence thus increasing the victim resiliency and the ability of the community to provide support, understanding and compassion. Three components are provided in this program. Kindergarten to grade 6 students participate in 2 sessions of the Who do you tell program. Students in grades 7 to 12 participate in the "Sexual Violence Awareness Presentation", Community adult presentations are tailored to meet the need of the specific audience.

#### **Community Support Training**

The goal of this program is to increase community member's ability to respond to individuals and/or families experiencing crisis and/or trauma.

Pace's Community Support Training program is a front line practical training to deal with crisis, loss and trauma that Community members, Para professionals, and Professionals may encounter. Facilitators for the training ensure theory is supplemented with practiced skill development, role plays and the ability to access community resources and/or consultation if the need arises in the future. Pace's Community Support Training Program is now the core training program for the GPRC Peer Support Program. The program is offered in conjunction with Grande Prairie Regional College as the Crisis Management Certificate Program.

How will this project be preventative in nature?

The comprehensive and longitudinal Adverse Childhood Experience (ACE) study has well documented the link between ACE and emotional and physical health issues across the individual's life span. ACEs are traumatic events that occur in childhood and may include exposure to violence by adult caregivers, direct forms of abuse to children, growing up with family members having mental health issues, judicial system involvement, and substance use problems. Toxic stress from ACEs changes brain development and affects how the body responds to stress.

Early childhood trauma is linked to chronic health problems, mental illness, substance misuse/abuse, poor educational outcomes, involvement in the child protection and criminal justice systems, earlier mortality rates, and other social issues (National Center for Injury Prevention and Control;)

The Alberta Association of Sexual Assault Services, 2020 found that Forty-five percent of adult Albertans have experienced some type of sexual abuse in their lifetime.

44% of girls and 24% of boys experienced an unwanted sexual act while under the age of 18. 41% of females 18 % of males had experienced sexual assault over the age of 18(Aasas, 2020)

#### With the realities:1

- 1.that rural rates of sexual assault within the family are 3.5 times higher than urban communities.
- 2.And common assault within the family is 4.7 times higher. (Stats Canada, 2017)R
- 3, "Violent crimes committed against young women and girls by a family member had a rate nearly (4.4x) times higher in the North than in the South," (Stats Canada, 2017)

Rural programs have very different issues compared to major cities and Northern Rural Programs must deal with much more; The # of deaths by suicide, accidental death, motor vehicle deaths and child/youth deaths are consistently higher in Northern Rural Communities compared to either Edmonton or Calgary, (Chief Medical Examiner, 2009)

With this in mind we must stop Adverse childhood experience as young as possible by both teaching violence and abuse are against the law, children need healthy adults to disclose trauma to and receive support to process abuse.

Community Members.

Who will be served by the project/ program and how many people do you expect will attend this event (if relevant)?

Sexual Assault Awareness Program (which deals with both physical and sexual abuse)
Children Kindergarten to grade 12,
College students,
Teachers,
Parents,

Community Support Training
College Students
Front line Volunteers and staff in the human service field.
Para professionals & professionals in the human service field.
Interested Community Members.

How will this program benefit the community?

We strive to develop an organizations with in the north west region of Alberta to have skills, knowledge and resources in dealing with crisis, sexual abuse, child abuse, domestic violence and suicide. Also, to influence and educate communities to respond to individuals and victims with compassion and respect.

How will you recognize the contribution from Green View FCSS to your organization and in the community?

All program advertising will include acknowledgment of Green View FCSS. Our programs will be available to participate in Green View Events if so requested.

How will this program be measured for success?

Participant feed back documented in post presentation questionnaire.

#### Management's Responsibility

To the Members of P.A.C.E. (Providing Assistance, Counselling and Education):

Management is responsible for the preparation and presentation of the accompanying financial statements, including responsibility for significant accounting judgments and estimates in accordance with Canadian accounting standards for not-for-profit organizations and ensuring that all information in the annual report is consistent with the statements. This responsibility includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of financial statements.

The Board of Directors is composed primarily of Directors who are neither management nor employees of the Society. The Board is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the financial information included in the annual report. The Board fulfils these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and external auditors. The Board is also responsible for recommending the appointment of the Society's external auditors.

MNP LLP is appointed by the members to audit the financial statements and report directly to them; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the Board and management to discuss their audit findings.

#### Independent Auditor's Report

To the Board of P.A.C.E. (Providing Assistance, Counselling and Education):

#### **Qualified Opinion**

We have audited the financial statements of P.A.C.E. (Providing Assistance, Counselling and Education) (the "Society"), which comprise the statement of financial position as at March 31, 2021, and the statements of operations including supplementary schedules 1 -20, changes in net assets and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, except for the matter described in the Basis for Qualified Opinion section of our report, the accompanying financial statements present fairly, in all material respects, the financial position of the Society as at March 31, 2021, and the results of its operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

#### **Basis for Qualified Opinion**

As is common for charitable organizations, the Society derives revenue from the public in the form of cash receipts and incurs related cash expenditures. Due to the Society's inability to create sufficient internal control procedures in this area, the completeness of these transactions are not susceptible to satisfactory audit verification. Accordingly our verification of these revenues and expenditures were limited to the amounts recorded in the records of the Society and we were unable to determine if further adjustments were required.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Society in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

#### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Society's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Society or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Society's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and
  perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a
  basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from
  error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Society's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit
  evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the
  Society's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw
  attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to
  modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However,
  future events or conditions may cause the Society to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the
  financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

|  | 987,922   | 434,517   |

For the year ended March 31, 2021

#### 1. Incorporation and nature of the organization

The Society's mission is to provide a confident, caring approach to people in crisis. Their aim is to strive to develop an organization with skills, knowledge and resources in dealing with crisis, post traumatic stress, sexual abuse, child abuse and suicide. Also, to influence and educate communities to respond to individuals and victims with compassion and respect. The Society provides services to Grande Prairie and the surrounding area.

The Society was incorporated under the Societies Act of Alberta.

The Society is a Registered Charity within the rules of the Federal Income Tax Act and is not subject to either federal or provincial income taxes. The Society files a Registered Charity Information Return with the Canada Revenue Agency annually.

#### Impact on operations of COVID-19 (coronavirus)

In early March 2020 the impact of the global outbreak of COVID-19 (coronavirus) began to have a significant impact on businesses through the restrictions put in place by the Canadian, provincial and municipal governments regarding travel, business operations and isolation/quarantine orders.

The impact of COVID-19 has been partially offset by available Government programs for which the Society was eligible. The Society has received wage subsidies from the period beginning in May 2020 up to and including November 2020, a portion of which was receivable at the date of completion of these financial statements. Further details of these programs is described in Note 17 Government assistance. Eligibility requirements under these programs have evolved since first announced and can be subject to changes in legislation or administrative positions, further, there is significant uncertainty of the period of time into the future that the Government will continue these programs.

At this time, it is unknown the extent of the impact the COVID-19 outbreak may have on the Society as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence. These uncertainties arise from the inability to predict the ultimate geographic spread of the disease, and the duration of the outbreak, including the duration of travel restrictions, business closures or disruptions, and quarantine/isolation measures that are currently, or may be put, in place by Canada and other countries to fight the virus.

#### 2. Significant accounting policies

The financial statements have been prepared in accordance with Canadian accounting standards for not-for-profit organizations set out in Part III of the CPA Canada Handbook - Accounting, as issued by the Accounting Standards Board in Canada using the following significant accounting policies:

#### Cash and cash equivalents

Cash and cash equivalents include balances with banks and short-term investments with maturities of three months or less. Cash subject to restrictions that prevent its use for current purposes is included in restricted cash.

Short-term investments with maturities over three months are included in marketable securities.

For the year ended March 31, 2021

#### 2. Significant accounting policies (Continued from previous page)

#### Tangible capital assets

Purchased tangible capital assets are recorded at cost. Contributed tangible capital assets are recorded at fair value at the date of contribution if fair value can be reasonably determined.

Amortization is provided using methods and rates intended to amortize the cost of assets over their estimated useful lives.

Government grants are recorded as deferred contributions and amortized as income over the same period as amortization of the related tangible capital assets.

|                        | Method            | Rate     |
|------------------------|-------------------|----------|
| Automotive             | declining balance | 30 %     |
| Computer equipment     | declining balance | 30 %     |
| Equipment              | declining balance | 20 %     |
| Office equipment       | declining balance | 20 %     |
| Leasehold improvements | straight-line     | 5 - 20 % |

In the year of acquisition, amortization is taken at one-half of the above rates.

#### Long-term investments

Long-term investments consist of a partnership interest recorded at cost, less any provisions for other than temporary impairment. They have been classified as long-term assets in concurrence with the nature of the investment.

#### Internally restricted equity

The Board has restricted a portion of the Society's equity for the purpose of maintaining a contingency fund.

#### Investment in tangible capital assets

Investment in tangible capital assets represents the equity the Society has invested in tangible capital assets. The balance is used to account for all tangible capital assets of the Society, and to present the flow of funds related to their acquisition and disposal, unexpended capital resources and debt commitments.

#### Long-lived assets

Long-lived assets consist of tangible capital assets. Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

The Society determines that a long-lived asset no longer has any long-term service potential to the Society, the excess of its net carrying amount over any residual value is recognized as an expense in the statement of revenue over expenditures. Write-downs are not reversed.

#### Surplus retention

Equity in surplus retention represents equity restricted in use by government agencies.

#### Revenue recognition

The Society follows the deferral method of accounting for contributions. Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. All other contributions are reported in revenue in the current year.

Restricted investment income is recognized as revenue in the year in which the related expenses are incurred. Unrestricted investment income is recognized as revenue when earned.

#### Government assistance

Claims for assistance under various government grant programs related to COVID-19 related to wages are recorded as revenue in the period in which the related expenditures were made when the amount is known and collection is assured.

For the year ended March 31, 2021

#### 2. Significant accounting policies (Continued from previous page)

#### Contributed materials and services

Contributions of materials and services are recognized both as contributions and expenses in the statement of operations when a fair value can be reasonably estimated and when the materials and services are used in the normal course of the Society's operations and would otherwise have been purchased.

The Society relies heavily on volunteers in order to carry out its objectives. Because of the difficulty of determining fair market value, contributed labour is not recognized in the financial statements.

#### Measurement uncertainty

The preparation of financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary. Amortization of tangible capital assets and deferred capital contributions are based on the estimated useful lives of tangible capital assets.

These estimates and assumptions are reviewed periodically and, as adjustments become necessary they are reported in excess of revenues and expenses in the periods in which they become known.

#### Financial instruments

The Society recognizes its financial instruments when the Society becomes party to the contractual provisions of the financial instrument. All financial instruments are initially recorded at their fair value.

At initial recognition, the Society may irrevocably elect to subsequently measure any financial instrument at fair value. The Society has not made this election.

The Society subsequently measures investments in equity instruments quoted in an active market and all derivative instruments, except those designated in a qualifying hedging relationship or that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, at fair value. Fair value is approximated by the instrument's initial cost in a transaction between unrelated parties. Investments in equity instruments not quoted in an active market and derivatives that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, are subsequently measured at cost less impairment. With the exception of financial liabilities indexed to a measure of the Society's performance or value of its equity and those instruments designated at fair value, all other financial assets and liabilities are subsequently measured at amortized cost.

Transaction costs and financing fees directly attributable to the origination, acquisition, issuance or assumption of financial instruments subsequently measured at fair value are immediately recognized in the excess of revenues over expenses for the current period. Conversely, transaction costs and financing fees are added to the carrying amount for those financial instruments subsequently measured at cost or amortized cost.

#### Financial asset impairment:

The Society assesses impairment of all of its financial assets measured at cost or amortized cost. The Society groups assets for impairment testing when there are numerous assets affected by the same factor. Management considers whether the issuer is having significant financial difficulty in determining whether objective evidence of impairment exists. When there is an indication of impairment, the Society determines whether it has resulted in a significant adverse change in the expected timing or amount of future cash flows during the year. If so, the Society reduces the carrying amount of any impaired financial assets to the highest of: the present value of cash flows expected to be generated by holding the assets; the amount that could be realized by selling the assets; and the amount expected to be realized by exercising any rights to collateral held against those assets. Any impairment, which is not considered temporary, is included in current year excess of revenues over expenses.

The Society reverses impairment losses on financial assets when there is a decrease in impairment and the decrease can be objectively related to an event occurring after the impairment loss was recognized. The amount of the reversal is recognized in the statement of operations in the year the reversal occurs.

For the year ended March 31, 2021

#### 2. Significant accounting policies (Continued from previous page)

#### Allocation of expenses

The Society engages in operating and managing programs aimed at providing support, counselling, information, and assistance to victims, offenders and families affected by sexual assult and abuse, and persons with distress. The costs of each program include the expenses that are directly related to providing the program, which consist of advertising, amortization, association dues, bad debts, client supplies, contract fees, education materials, fundraising, recreation, repairs and maintenance, salaries and benefits, training and education, travel and workshops. The Society also incurs a number of general support expenses that are common to the administration of the Society and each of its programs.

The Society allocates its general support expenses by identifying the appropriate basis of allocating each component expense, and applies that basis consistently each year. The general support expenses consist of equipment rental, insurance, interest and bank charges, janitorial, office, professional fees, rent and telephone and are allocated to the programs proportionately based on the size and average usage of each program.

Depending on various contracts with external funders, internal rent is charged within each program. The amount charged in the current year is \$126,600 (\$127,500 in 2020).

The allocation of the general support expenses are disclosed in the separate schedules for each program.

#### 3. Restricted cash

Restricted cash includes \$804,885 of restricted deferred grant revenues. Spending of these amounts is restricted to certain expenses as agreed to between the Society and the various funders.

Restricted cash also includes \$19,601 (\$56,601 in 2020) which are raised by bingos and casinos. Spending of these amounts is restricted to certain expenses as agreed to between the Society and the Government of Alberta. Amounts raised must be deposited to bank accounts, set aside for this purpose and amounts spent must be paid directly out of these accounts.

#### 4. Marketable securities

|  |                           |              | 2021     | 2020     |

For the year ended March 31, 2021

#### 6. Long-term investments

Long-term investments consist of 2 units in the Alberta Satellite Bingo Limited Partnership representing a 0.50% (0.50% in 2020) interest.

#### 7. Accounts payable and accruals

|                               | 181,376 | 175,976 |
|-------------------------------|---------|---------|
| Vacation and overtime payable | 32,502  | 35,055  |
| Wages payable                 | 34,953  | 40,638  |
| Source deductions payable     | 38,443  | 42,032  |
| Accounts payable and accruals | 75,478  | 58,251  |
|                               | 2021    | 2020    |

#### 8. Deferred contributions

Deferred contributions consist of unspent contributions, which have been externally restricted for capital or operating purposes. Recognition of these amounts as revenue is deferred to periods when the specified expenditures are made.

Revenue recognized includes \$2,545,073 of grant funds, \$113,632 of other income and \$78,141 of funds used for capital purchases included in deferred contributions related to tangible capital assets.

For the year ended March 31, 2021

#### 9. Bank indebtedness

The Society has access to a line of credit with maximum credit available of \$50,000 (\$50,000 in 2020), none of which was drawn at year end. The line of credit bears interest at prime plus 3% (prime plus 3% in 2020) and is secured by a general security agreement providing a security interest over all present and after-acquired personal property.

#### 10. Deferred contributions related to capital assets

Deferred capital contributions consist of the unamortized amount of contributions received for the purchase of tangible capital assets. Recognition of these amounts as revenue is deferred to periods when the related tangible capital assets are amortized. Changes in deferred capital contributions are as follows:

|   | 2021     | 2020    |
|---|----------|---------|
| Balance, beginning of year                          | 87,500   | 93,750  |
| Contributed capital funding                         | 78,141   | -       |
| Less: Amounts recognized as revenue during the year | (14,609) | (6,250) |
| Polance and of year                                 | 454.000  | 07.500  |
| Balance, end of year                                | 151,032  | 87,500  |

#### 11. Contingencies

The Society receives funding from various government departments. Requirements specify that amounts not expended in the specified time period be repaid to the government. In some cases, the amount that may have to be repaid is unknown at the date the financial statements are issued. No provision has been made for possible repayment, other than those amounts included in deferred revenue. Should repayment be required the amount would be recorded as a reduction of unrestricted net assets.

#### 12. Commitments

The Society has entered into a lease contract commencing April 1, 2015, for 7 years with an annual payment of \$1,500.

#### 13. Income taxes

The Society is registered as a charitable organization under the *Income Tax Act* (the "Act") and as such is exempt from income taxes and is able to issue donation receipts for income tax purposes. In order to maintain its status as a registered charity under the Act, the Society must meet certain requirements within the Act. In the opinion of management, these requirements have been met.

#### 14. Capital Management

The Society's objectives when managing capital are to maintain a strong cash flow for its operations and to continue to operate as a going concern. The Society sets the amount of capital in proportion to risk and manages the capital structure and makes adjustments to it in light of changes in economic conditions.

The Society manages the following as capital:

|                       | 1,793,137 | 834,517 |
|-----------------------|-----------|---------|
| Marketable securities | 805,214   | 400,000 |
| Restricted Cash       | 19,601    | 56,601  |
| Cash                  | 968,322   | 377,916 |
|                       | 2021      | 2020    |

For the year ended March 31, 2021

#### 15. Financial instruments

The Society, as part of its operations, carries a number of financial instruments. It is management's opinion that the Society is not exposed to significant interest, currency, credit, liquidity or other price risks arising from these financial instruments except as otherwise disclosed.

#### Credit concentration

Financial instruments that potentially subject the Society to concentrations of credit risk consist primarily of accounts receivable concentrated from two grantors (four grantors in 2020). However, the Society believes that there is minimal risk associated with the collection of these amounts, as the amounts are due from government agencies.

#### Interest rate risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. Changes in market interest rates may have an effect on the cash flows associated with some financial assets and liabilities, known as cash flow risk, and on the fair value of other financial assets or liabilities, known as price risk. The Society is exposed to interest rate risk primarily through its line of credit that bears an interest rate that fluctuates with prime.

#### 16. Economic dependence

The Society's primary source of revenue is government grants. The grant funding can be cancelled if the Society does not observe certain established guidelines. The Society's ability to continue viable operations is dependent upon maintaining its right to follow the criteria within the provincial government guidelines. As at the date of these financial statements the Society believes that it is in compliance with the guidelines.

#### 17. Government assistance

In response to the global outbreak of COVID-19 (coronavirus), the federal government of Canada introduced the Canada Emergency Wage Subsidy (CEWS) program to help organizations retain their employees. This subsidy requires complex calculations to determine the eligibility and amounts of the subsidy. At the date of release of these statements there is uncertainly around the Government of Canada's review process with regards to this program and it is possible that amounts claimed could be adjusted and require repayment in the future. The Society has applied for \$507,588 of subsidies related to the current period ending. This amount has been included in other items. \$80,464 of this amount is receivable as at yearend.

SUBJECT: **Delegation-John Howard Society** 

**SUBMISSION TO: GREEN VIEW FAMILY AND** REVIEWED AND APPROVED FOR SUBMISSION

COMMUNITY SUPPORT SERVICES

COMMUNITY SUPPORT SERVICES

**BOARD** 

MEETING DATE: December 16, 2021 GM: MANAGER: LDH

**DEPARTMENT: GREEN VIEW FAMILY AND** PRESENTER: LDH

#### **RELEVANT LEGISLATION:**

**Green View FCSS Policy**: N/A

#### **RECOMMENDED ACTION:**

MOTION: That Green View Family and Community Support Services Board accept the presentation from the John Howard Society for information.

#### BACKGROUND/PROPOSAL:

Representatives of the John Howard Society, of Grande Prairie, will provide an overview of programs as well as details on the Eureka program offered to Greenview residents. The Eureka program stands for Exploring and Understanding Respect to Encourage Kindness and Acceptance. The goal of the EUREKA program is that youth will experience more respectful, considerate and healthy peer relationships through participatory activities, games, role-playing, stories and discussion.

#### BENEFITS OF THE RECOMMENDED ACTION:

1. The benefit of accepting the presentation is to update the Board on services provided by the John Howard Society.

#### DISADVANTAGES OF THE RECOMMENDED ACTION:

There are no perceived disadvantages to accepting the presentation.

#### ALTERNATIVES CONSIDERED:

Alternative #1: The Green View Family and Community Support Services Board may choose not to accept the presentation for information. This alternative is not recommended for if the Board is aware of what services are being delivered and how the funds are being utilized; the Board will be well informed and better able to make funding decisions in the future.

#### FINANCIAL IMPLICATION:

**Direct Costs: N/A** 

Ongoing / Future Costs: N/A

STAFFING IMPLICATION: N/A

#### PUBLIC ENGAGEMENT LEVEL:

Greenview has adopted the IAP2 Framework for public consultation.

### **INCREASING LEVEL OF PUBLIC IMPACT**

Inform

#### **PUBLIC PARTICIPATION GOAL**

Inform - To provide the public with balanced and objective information to assist them in understanding the problem, alternatives, opportunities and/or solutions.

### **PROMISE TO THE PUBLIC**

Inform - We will keep you informed.

FOLLOW UP ACTIONS: N/A

Please attach additional documentation that supports your application and include work description or details, other funds source, event or program timeline, estimates, a detailed budget, expected results and benefits to the Municipality in relation to this project.

#### By signing this application, I/we concur with the following statements:

- \* The grant application is complete and includes all supporting documentation, including most recent financial statements based on legislative requirements of our organization, balance sheet, current bank balances and current year detailed operating budget.
- \* The grant shall be used for only those purposes for which the application was made. If the original grant application or purposes for which the grant requested have been modified by the Green View FCSS board; the grant will be used for those varied purposes only.
- \* The organization will provide a written outcomes report to the Green View FCSS office, along with an expense report, within 30 days of completion of the grant.
- \* The organization agrees to submit to an evaluation of the project related to the grant.
- \* The organization will return any unused portion of the grant funds to Green View FCSS or to request approval from the FCSS Board to use the funds for an optional project.

#### **GRANT INFORMATION**

#### **Total Amount Requested**

\$9,320.00

Please note for all grant applications over \$2,500, the applicant must make a presentation to the FCSS Board.

#### **Proposed Project**

EUREKA stands for Exploring and Understanding Respect to Encourage Kindness and Acceptance. EUREKA is designed as an engaging, interactive, community based, two day workshop (and in-class EUREKA Follow Up sessions), targeted at grade seven students. During the 2020/21 school year, we delivered 23 in person workshops to 424 youth despite COVID and not being able to work in 4 of our usual 6 school districts. We delivered EUREKA Follow Up to 7 of the 23 workshop classes (115 students) via a live, online format. Given COVID-19 and the uncertainty of regular school for the upcoming 2021/22 school year given a possible 4th wave, we are prepared to offer EUREKA program content through other means as needed.

The goal of the EUREKA program is that youth will experience more respectful, considerate and healthy peer relationships through participatory activities, games, role playing, stories and discussion. The program focuses on developing critical thinking skills, building character by emphasizing respect for self and others, developing non-violent conflict resolution skills, and creating an increased sense of community among participants. Program content centers around the following principles, which provide the foundation for learning:

- \* Affirmation
- \* Communication
- \* Cooperation
- \* Conflict Resolution
- \* Community Building

Our work within the EUREKA Program consists of:

Public Awareness: Distributing EUREKA marketing packages to applicable school districts, schools and teachers in the region.

Orientation: Providing pre-workshop consultations with teachers to determine their specific needs or concerns, as well as provide orientation for the material and delivery method. We will continue to adjust in our delivery of core program content in different ways as needed, and will continue to offer customized content and delivery methods that will focus on particular areas that teachers indicate need more attention.

Content Delivery: We are hoping that we will be able to resume delivery of in person, community-based workshops and in person, classroom based follow up in the 2021/22 school year, as we know from our results in 2020/21 that these original formats lead to stronger outcome results. Nevertheless, we will continue to adapt as needed, perhaps shifting to live online delivery through Zoom, program materials that teachers can deliver themselves, or student self-directed distance learning as needed. We will aggressively market EUREKA to the 5 to schools in the FCSS Green View area. We are not sure at this time that teachers will be able to commit to the usual 10 hours of EUREKA time for their class, that we will be allowed back into schools, or that students can attend a community location. All we can do is work with teachers to determine what will work best to ensure that youth continue to receive the EUREKA content through whatever means are available and most suitable. We have shown through the delivery of the live online Follow Up sessions that we can successfully deliver online follow up as needed, which may offer rural and remote schools additional options for engaging with EUREKA. Typical EUREKA workshop content includes:

- · Instruction on individuality, communication, cooperation, conflict resolution and community building
- · Direct skill instruction
- Opportunities for development & practice
- Group discussion
- Role play experience
- · Participatory games & activities

Follow Up Sessions: Following completion of the workshops, schools are provided the opportunity to receive up to 8 Follow Up sessions. This helps to ensure that program strategies are more deeply integrated into the classroom and school curriculum over the longer term. We have developed a selection of sessions, each focusing on the EUREKA principles and teachings, and we work with teachers to customize and deliver materials that meet their identified needs and goals. Follow Up delivery in 2020/21 was explained above and this method of delivery will continue for the 2021/22 year as needed, or we will gladly resume in person delivery of follow up if that is possible.

See attached: Program Logic Model. Please note that this Program Logic Model describes the EUREKA program in original form and has not been edited to reflect program delivery changes due to COVID-19.

#### How will this project be preventative in nature?

EUREKA is preventive, with a focus on improving youths' ability to identify & act on their own social needs in a positive, pro-active manner, reflecting the crucial elements identified by research as necessary for effective conflict resolution training.

Rigorous evaluations of conflict resolution and anti-bullying education programs have been published in the past twenty years. Published evidence suggests that the best programs are those that are taught to all students (not just those with disruptive behaviours), incorporate a set of problem-solving principles, involve a structured process of problem solving strategies and provide the set of foundational abilities that youth need to resolve conflicts effectively (Crawford & Bodine, 2007). Programs must provide students with the life skills they need to integrate their perceptions of an unknown situation into a framework of known responses in order to produce socially acceptable behaviours.

The most effective programs are social-cognitive interventions that address the beliefs and attitudes that support aggressive behaviour (Thornton, 2002). Programs should involve teachers and principals from the beginning, should include role-playing and small group exercises to help youth practice pro-social, non-violent behaviour and develop automatic positive responses (Vera, 2004), and should provide youth with reinforcing "booster" activities to sustain the positive effects of the training (Thornton, 2002). Effective programs teach the following skills:

- · negotiation, critical thinking, and decision making
- identifying, managing, and coping with feelings, including anger
- anticipating the consequences of one's aggressive verbal and nonverbal behaviour
- finding non-violent alternatives to conflict
- moral reasoning. (Thornton, 2002)

A two-year study of the effects of conflict resolution training and cooperative learning on at-risk students at an alternative urban high school found a variety of positive effects (Coleman, N.D.). Trained students improved in their management of personal conflicts, experienced increased social support, and felt less victimized by others. Enhanced relationships with others led to increased self-esteem and more frequent positive feelings of well-being, as well as a decrease in anxiety and depression. Higher self-esteem, in turn, produced a greater sense of personal control, and students' positive feelings of well-being led to higher academic performance and better work-readiness and performance.

Finally, research indicates that initiatives involving the broader community may enhance the effectiveness of school-based bullying intervention programs. A study of 46 Canadian school-based bullying prevention initiatives revealed that the top five successful programs addressed the attitudes, behaviours, and interpersonal and emotional skills of students, involved parents in the initiative, and involved the larger community (Public Safety Canada, 2008). The involvement of members outside the school community (such as criminal justice professionals, mental health workers) ensures that such individuals provide youth with consistent messages about how to respond to bullying. Canadian research demonstrates that lover levels of bullying are related to school connectedness (degree to which students believe that adults and peers in school care about them as individuals) and positive school climate (Public Safety Canada, 2018).

#### Who will be served by the project/ program and how many people do you expect will attend this event (if relevant)?

The EUREKA program is targeted at grade 7 students but may be offered to grades 5-8 as necessary given circumstances (e.g. combined classrooms).

Our overall goal is to support 30 classrooms with EUREKA program content throughout our catchment area (Green View FCSS area, the County of Grande Prairie and the City of Grande Prairie). Based on our average data over the past few years, we would expect to reach up to 500 students during the delivery of the workshops, with some receiving additional attention through follow up sessions in class. We also typically hope to engage 30 volunteers (1 per workshop), although this has always been a challenge.

In 2020/21, we provided 23 workshops to 424 students in our delivery region, as well as follow up sessions to 7 classes at 4 schools (115 students). We were unable to work in 4 of the 6 usual school districts, which impacted our overall workshop and student counts this year. We are pleased with the amount of service we were able to provide given the challenges that schools faced this year with opening and closing throughout the year and in how we had to adapt our delivery methods.

Over the past eight years, we have offered an average of 3 workshops/year in the FCSS Green View area. In 2020/21, we delivered one workshops to 8 youth in the FCSS Green View region, in Grovedale. Unfortunately, three of the four school districts in the FCSS Green View area were not allowing outside groups into the school nor allowing students to leave the school, so we had only two schools available to us, of which one received both a workshop in class as well as follow up sessions online.

In 2021/22, we will keep our target to provide the EUREKA workshop program content to at least 3 classrooms in the Green View FCSS catchment area, as we feel this target is reasonable, based on the data from the past eight years. Of course, we will market the program to all five Green View FCSS area schools and would be delighted if we were invited to provide EUREKA workshop content to all five classes in the Green View FCSS area. With our target of three classrooms, we estimate that we will reach 65 youth. Our funding request of \$9,320 is based on previous years' average cost per workshop of \$2,330. We feel that this a reasonable way of costing out the program, as it reflects actual numbers from previous years. Although COVID impacted the number of workshops this year, our staff were no less busy, working hard to adapt and flex in delivering the workshops. We anticipate, that if all goes well, we will be able to resume business as usual in September.

We know from the student feedback that EUREKA is a powerful program that youth often refer to as "life changing," frequently expressing how they wish that everyone would get a chance to participate in EUREKA. The reality is that teachers make choices and, depending on the year and class make up, they deem some classes more in need of this type of education than others. While it is important that teachers have choices and can rely on this service being available when they feel they need it, ultimately we want schools to recognize how ALL youth can benefit from this kind of education and to understand that they shouldn't just be implementing it with a "difficult" class. This program is about prevention and respect and caring applies to everyone.

#### How will this program benefit the community?

With your support, our goal is that all Grade 7 students in the Green View FCSS area will be given an opportunity to participate in a program that teaches them about respect and empathy, greater consideration for others and increased knowledge and use of non-violent conflict resolution skills. We all want to raise youth who become citizens who are about others and respect their community. There is tangible benefit to our communities to raise citizens who think before reacting and who have the skills to solve problems without violence. We can make that happen together. We believe that it is more important than ever to help youth learn communication skills, to appreciate and foster community and to cooperate with others for the good of all, during this time of pandemic related stress, anxiety and isolation.

The cost per student is low and the impact is high. In 2018-19, we provided 4 workshops to 60 youth in the MD of Greenview, at a cost of \$ 121 per youth for the 2 day workshop. In 2019-20, we provided 2 workshops for 2019/20, reaching 33 youth; two additional workshops were canceled in 2019/20 and while it is impossible to know how many youth we would have reached through those additional workshops, were it not for COVID, a reasonable estimate would be that we would have realized similar numbers as last year, serving 60-65 youth. In 2020/21 we held one workshop with 8 students and reached 15 students during the Follow Up sessions online. The variation in numbers is due to students being out of school during COVID and shifting between in person and online.

Our outcome evidence on the next page demonstrates the benefits to the region and shows that the program has an impact on individual youth, such as increased respect for self, increased respect for others, and increased knowledge and use of non-violent conflict resolution techniques.

It should also be noted that, in addition to the EUREKA Program, the communities of FCSS Green View benefit significantly from the other work of our organization within your municipality. We offer domestic violence treatment services to individuals living in your communities. The constituents in your municipality benefit from these other services, with the associated costs covered by other sources.

How will you recognize the contribution from Green View FCSS to your organization and in the community?

We will recognize the contribution from Green View FCSS with your name and/or logo on:

- \* all promotional print materials
- \* in our agency Annual Report
- \* in other reports (including those to funders)
- \* in our newsletter
- \* in social media posts
- \* on program materials, where deemed appropriate.

We would be happy to further promote and recognize your contributions through distributing any promotional materials such as posters, pens, water bottle or other products that the MD or FCSS could provide that might be suitable for use or distribution.

#### How will this program be measured for success?

The goal of the EUREKA program is that youth will experience more respectful, considerate and healthy peer relationships. The program measures four outcomes:

- · Participants report greater sense of self and respect for self.
- · Participants report increased empathy and respect for others.
- Participants have increased knowledge of non-violent conflict resolution techniques.
- Participants have increased their use of non-violent conflict resolution techniques (Follow up sessions only).

Workshop evaluation forms are completed by students, measuring knowledge gain at the completion of each workshop, and by teachers on whether students gained knowledge. Follow up sessions include a written evaluation completed by teachers and students at the end of the session sequence, measuring knowledge again as well as behaviour change. Data is tallied and examined quarterly.

In the 2020/21 program year in FCSS Green View schools, we had excellent results from our student workshop (n=8):

- Participants report greater sense of self and respect for self 88% of students reported knowing it is okay to be themselves and 88% of students reported that they feel good about themselves.
- Participants report increased empathy and respect for others 100% of students reported caring about the feelings of others and 100% of students reported showing respect for other kids.
- Participants have increased knowledge of non-violent conflict resolution techniques 88% of students reported knowing what a non-violent solution could be.

We also have satisfactory outcome results from the Follow Up sessions (n=17); we believe they are not as strong as the workshop because so many of the students participating in Follow Up had not received the workshop experience prior to receiving the Follow Up lessons. We also feel that some of these individual question results are perhaps also a barometer of the struggles that youth are experiencing due to pandemic isolation and uncertainty.

- Participants report greater sense of self and respect for self 76% of students reported knowing it is okay to be themselves and 41% of students reported that they feel good about themselves.
- Participants report increased empathy and respect for others 82% of students reported caring about the feelings of others and 88% of students reported showing respect for other kids
- Participants have increased knowledge of non-violent conflict resolution techniques 94% of students reported knowing what a non-violent solution could be.
- Participants have increased their use of non-violent conflict resolution techniques 76% of students reported using the techniques taught in the workshop and follow up sessions.

A Green View student comment about the EUREKA workshop in 2020/21 was: "I learned to think before reacting because I used to just say whatever came to mind, but now I think about how it would affect the other person."

Another Green View student, when asked to describe a situation in which they talked themselves up to expect the best or look for the positive, said: "When I was about to go and sing in front of a bunch of people I was scared I would hit an awkward high note but I thought positive thoughts and I was able to sing very nicely."

#### The FCSS Outcomes Model: Chart of Outcomes and Indicators

## 1. PROGRAM LOGIC MODEL

Please describe your program outcomes on the following chart:

| Program/Project Title:   | EUREKA   |
|--|--|
| Statement of Need:  What community issue, need or situation are you responding to? | Bullying, conflict and violence often lead to serious consequences for our youth, both as victims and as offenders. Bullying occurs when a person experiences repeated attacks, over time, by one or more individuals who systematically abuse their power (CPHA, 2003). It is often motivated by the need for social status or the need to dominate. Physical and verbal bullying more often come to the attention of school authorities; however, the social manipulation and social exclusion of victims is less easily detectable though equally harmful. Bullying is a primary element of conflict in the lives of youth. Others define bullying as a relationship problem because it is a form of aggression that takes place in the context of a relationship in which one youth repeatedly asserts power and control over another through aggression (Pepler et al., 2007).  According to Safe Canada (2021), the following national data highlights the severity of the issue of bulling in Canada:  47% of Canadian parents have at least one child that has been a victim of bullying  Around one-third of the population has experienced bullying as a child  Around one-third of teenagers have been bullied recently  A 2008 social norms survey of City and County 4732 youth aged 10-19 (City of Grande Prairie, 2008) found that 54% of youth were physically bullied in the previous year, 79% reported being verbally bullied and 70% were socially bullied. More worrisome, when one examines the number of youth who reported daily bullying, 378 reported daily physical bullying, 757 reported daily verbal bullying, 425 reported daily social bullying and 993 reported witnessing bullying daily. These results provide compelling evidence of the extent of bullying in the Grande Prairie region and, therefore, the need to teach youth about |
|  | respect for others and healthy conflict resolution.  There is clear evidence of the effects of bullying on both victims and bullies. Many otherwise well-adjusted children develop symptoms of internalizing problems following long term exposure to bullying (CPHA, 2003). At the very least, exposure to bullying exacerbates problems among students already pre-disposed to emotional difficulties. Among victimized students, lower literacy levels and poor academic performance are attributed to their elevated levels of anxiety and depression. Victimized children commonly report symptoms of depression, anxiety, loss of self-esteem and occasionally increased aggression (NCPC, 2005). An international study that looked at over 120,000 students from 28 countries (including 6567 Canadian students) found that students who were bullied on a weekly basis are nearly twice as likely to experience headaches, stomach aches, backaches or dizziness, than their non-bullied peers (Due, 2005). Compared to non-bullied students, victims of bullying were up to 7.5 times more likely to experience psychological symptoms such as loneliness, nervousness, petulance, as well as other symptoms related to depression such as difficulty sleeping, tiredness and helplessness.  |

Children who continue to bully can suffer psychological problems later on, such as conduct disorders, aggressive tendencies and depressive symptoms. Children who bully others have been shown to have higher rates of substance abuse, aggressive behaviour and poor academic performance (Nansel, 2004). Adolescents who reported bullying peers were more likely to engage in both sexual harassment and dating violence (Pepler et al., 2007). Adolescents who frequently bully others may be at high risk for transferring these interactional patterns to other forms of power and aggression, such as workplace harassment, domestic violence, and child abuse. If the reported rates of bullying in Grande Prairie are left unaddressed, the consequences for our youth and our communities are evident.

The Grande Prairie region's Community Foundation published a study in 2013 called the Vital Youth and Young Adults Survey, in which the opinions of 703 youth aged 15-24 were received. This report found that:

- 29% of county respondents indicated that they would like anti-bullying initiatives in response to a question about ensuring that the community is safe for young people.
- 34% of youth respondents indicated that they would like "more youth who are trained to recognize stress and turmoil in other youth" when they were asked what they would do to address the health and well-being of youth.
- A respondent is also quoted (page 25) as saying: "Programs for teaching kids how to deal with and stop bullying should be increased."

#### Overall Goal:

What change or impact do you want to achieve?

The goal of the EUREKA program is that youth experience more respectful, considerate and healthy peer relationships.

#### **Broad Strategy:**

**How** will you address the issue, need or situation?

EUREKA stands for Exploring and Understanding Respect to Encourage Kindness and Acceptance. EUREKA is an engaging, interactive, community based, two day workshop (and in-class follow up sessions), targeted at grade seven students. The goal of the EUREKA program is that youth will experience more respectful, considerate and healthy peer relationships through participatory activities, games, role playing, stories and discussion. The program focuses on developing critical thinking skills, building character by emphasizing respect for self and others, developing non-violent conflict resolution skills, and creating an increased sense of community among participants. Program content centres around the following principles, which provide the foundation for learning:

- \* Affirmation
- \* Communication
- \* Cooperation
- \* Conflict Resolution
- \* Community Building

Our work within the EUREKA Program consists of:

Public Awareness: Distributing EUREKA marketing packages to applicable schools in the region.

Orientation: Providing pre-workshop consultations with teachers to determine their specific needs or concerns and to provide orientation for the workshops. We meet the teachers in person or virtually to provide an orientation to the program as well as to learn more about what they were hoping the program will do for their class. This personal approach will help build trusting relationships, set the goals and identify strategies to facilitate the program. We use a pre-workshop assessment that is completed

with the teacher. Each EUREKA workshop will have standard, core content as well as some content that will be customized to the needs of the class, as determined through the assessment and teacher meeting.

Workshop Delivery: Offering 30 workshops annually. Workshops are held over 2 days (10 hours) and are aimed at grade 7 students. Each workshop provides:

- Instruction on individuality, communication, cooperation, conflict resolution and community building
- · Direct skill instruction
- · Opportunities for development & practice
- · Group discussion
- · Role play experience
- · Participatory games & activities

Follow Up Sessions: Following completion of the workshops, schools are provided the opportunity to receive up to 8 in class follow up sessions as part of the EUREKA Follow Up Program component. This helps to ensure that program strategies are more deeply integrated into the school curriculum over the longer term. We have developed a selection of sessions, each focusing on the EUREKA principles and teachings, and we work with teachers to customize and deliver materials that meet their identified needs and goals.

#### Rationale:

What evidence do you have that this strategy will work? Research?

if/then statement

Rigorous evaluations of conflict resolution and anti-bullying education programs have been published in the past twenty years. Published evidence suggests that the best programs are those that are taught to all students (not just those with disruptive behaviours), incorporate a set of problem-solving principles, involve a structured process of problem solving strategies and provide the set of foundational abilities that youth need to resolve conflicts effectively (Crawford & Bodine, 2007). Programs must provide students with the life skills they need to integrate their perceptions of an unknown situation into a framework of known responses in order to produce socially acceptable behaviours.

The most effective programs are social-cognitive interventions that address the beliefs and attitudes that support aggressive behaviour (Thornton, 2002). Programs should involve teachers and principals from the beginning, should include role-playing and small group exercises to help youth practice pro-social, non-violent behaviour and develop automatic positive responses (Vera, 2004), and should provide youth with reinforcing "booster" activities to sustain the positive effects of the training (Thornton, 2002). Effective programs teach the following skills:

- · negotiation, critical thinking, and decision making
- · identifying, managing, and coping with feelings, including anger
- anticipating the consequences of one's aggressive verbal and nonverbal behaviour
- · finding non-violent alternatives to conflict
- moral reasoning. (Thornton, 2002)

A two-year study of the effects of conflict resolution training and cooperative learning on at-risk students at an alternative urban high school found a variety of positive effects (Coleman, N.D.). Trained students improved in their management of personal conflicts, experienced increased social support, and felt less victimized by others. Enhanced relationships with others led to increased self-esteem and more frequent positive feelings of well-being, as well as a decrease in anxiety and depression. Higher

self-esteem, in turn, produced a greater sense of personal control, and students' positive feelings of well-being led to higher academic performance and better work-readiness and performance.

A meta-analysis of 36 studies on conflict resolution education (CRE) in schools found that increased attention to procedural elements within a program is one of the best ways to increase the effectiveness of almost any conflict resolution education program (Garrard & Lipsey, 2007). They argue that tools to support implementation fidelity include a clearly articulated program manual and consistent training of program staff. They note in their study that the early and middle adolescent years embody a developmental transition in which changes in students' social and educational roles are related to increases in interpersonal conflicts and that grade 7 has been noted in several studies as a transition point where more interpersonal conflict is expected. Their research also suggests that "adolescence may represent a window of opportunity where the increased need for interpersonal conflict resolution aligns with students' readiness to benefit from the CRE programs of modest intensity and duration" (Garrard & Lipsey, 2007, p. 19).

Finally, research indicates that initiatives involving the broader community may enhance the effectiveness of school-based bullying intervention programs. A Canadian study of 46 school-based bullying prevention initiatives revealed that the top five successful programs addressed the attitudes, behaviours, and interpersonal and emotional skills of students; involved parents in the initiative; and involved the larger community (Public Safety Canada, 2008). The involvement of members outside the school community ensures that such individuals provide youth with consistent messages about how to respond to bullying.

The social and financial costs of conflict and violence are preventable. EUREKA offers a local solution that is recognized in Grande Prairie and surrounding areas as a positive approach to conflict and violence prevention. Our population continues to grow rapidly and we must be pro-active in working to reduce bullying as well as the incidence of violence. EUREKA is preventive in nature and aims to enhance, strengthen and stabilize family and community life. The focus is on improving the ability of youth to identify and act on their own social needs in a positive and pro-active manner.

EUREKA's content and delivery reflect the essential elements identified by research as necessary for effective conflict resolution training. The EUREKA workshop components centre on a Personal Power Cell and include respect for self; respect and caring for others; think before reacting; expect the best; and ask for a non-violent solution. Activities provide the opportunity for introspection and it is always exciting to see what youth discover about themselves and others. By removing students from the traditional classroom setting and offering the EUREKA program in the community, students can view themselves and others in a different environment, through a different lens.

Alberta Education's "Caring, Respectful and Safe Learning Environment" (CRSLE) initiative is intended to ensure that the learning environment provides a sense of belonging, acceptance and safety. Schools are provided with information and resources on bullying prevention, fostering mental health and creating a CRSLE environment. The EUREKA Program is an excellent complement to this initiative.

IF/THEN STATEMENT: If we provide an interactive, exceptional two day workshop to teach youth about respect, empathy, cooperation and non-violent conflict resolution, then students will have more respectful, considerate and healthy peer relationships.

| Who is served? Target Group  | Primary target is grade 7 students, but EUREKA may be offered to grades 5-8 depending on size and need of community or school.  |

Number of volunteer hours related to this project only? (if applicable)

Stories (please share a story that describes the significant impact for a participant or participants.)

After the follow up program sequence, students described a situation in which they talked themselves up to expect the best or look for the positive:

"When I was about to go and sing in front of a bunch of people I was scared I would hit an awkward high note but I thought positive thoughts and I was able to sing very nicely."

"I did it once cause I had to talk in a show as like a main part and I had to psych myself up."

"When I was about to compete in a skating competition, I told myself I could do it. - I got silver."

"I said I was good enough and found out I was."

After the follow up program sequence, students described the following situations in which they used the conflict resolution skills they learned:

"I learned to think before reacting because I used to just say whatever came to mind, but now I think about how it would affect the other person."

"My sister annoyed me so I walked away."

"Talk it out or walk away."

"I learned to walk away if they want to fight."

The surveys completed by the teacher on both the workshop and the follow up session sequence indicated that the program met all of the outcomes for the students and the teacher commented that the EUREKA Coordinator was a great presenter and related well to the kids.

#### CONTINUOUS QUALITY IMPROVEMENT

#### After analyzing the data, would you like to continue with this project? Why or why not?

This work should continue. It's clear from the evaluation results one results over any years, that the program meets the intended outcomes. Schools have been eager to participate in EUREXA and demand has always been strong (pre-COVID). Schools recognize how ALL youth can benefit from this kind of education and teachers understand that they shouldn't just be implementing these strategies with a "difficult" class because prevention, respect and cating apply to everyone. Evaluation feedback from youth and teachers consistently shown is impact not only on individuals, but on peer relationships and the school community. The impact of EUREXA is clear and

for the 2020/21 schoolyour, we determined that the workshops wouldn't work online given how interactive and participatory they are and continued with in person delivery, where possible. Unfortunately, we were only able to enter one school in the ICSS Green View area due to COVID. Three of the four school boards (floly family Catholic, Northern Gateway and Northland) were not allowing outside agencies into schools, so we could not deliver the workshops we had proposed. We conlined checking throughout the year if each board's rules had changed but the evolving nature of the pandemix kept us out of schook. This left us within his felt us with only two possible schooks that we could access, and we were only successful in completing a workshop and follow up sequence with one of them (Penson school in Grovedale). When schook were shut down for weeks at a time, workshops were canceled and rescheduled. COVID also impacted the feasibility and availability of community facilities to host the workshops picking, as many schools did not allow students to leave the building. Accordingly, workshops were canceled and rescheduled, and parent volunteers were unable to join. Follow up sessions were all delivered two online since they are shorted (1.2 hours rather than to full days).

We have shown that we can successfully deliver EUREKA content in new ways that meet teacher and student needs. We believe at this trying time that students need help communicating, respecting others, cooperating, and resolving conflict

#### What improvements could you make to the project?

We will continue our new approach of consulting with teachers about the specific issues their students and classroom face in order to tailor workshops and follow up session content to their needs. We will take a look at our marketing materials and do all we can to help schools understand the importance of the EUREKA program in helping students cope with so much change and with all of the emotions they need to learn to handle as teens and due to COVID. We found our EUREKA Follow-Up Program to have a particular importance in aiding students' social & emotional learning as it offers reinforcement for the lessons of the EUREKA workshop. COVID brought additional uncertainty, pressure and isolation into students' lives. The ongoing uncertainty of school being in person or online and students having to pivot quickly in such situations many times during the year resulted in individual student struggles, as well as obvious class disconnection. Providing eight sessions that reinforced the importance of caring, empathy, positivity, consideration and non-violence was essential, particularly this year. Therefore, we will do all we can to encourage teachers to book with us for follow up sessions post workshop as students and teachers will still be adjusting from the pandemic over the coming year. We will also continue to adapt and adjust our delivery methods during the 2021/22 school year as needed should COVID-19 safety protocols remain an issue.

#### What improvements could you make to the outcome measurement process?

We examined our outcomes measurement system again in the summer of 2020 with the new 2019 version of the Measures Bank available, to see if our questions are still in the Measures Bank or required changes prior to the start of the 2020/21 program year in September. The John Howard Society has a rigorous outcome measurement process in place for all programs, including EUREKA, and we study our data annually in the summer to discuss what the results tell us about program content, program delivery and outcome measurement itself. While we had changed the questions for EUREKA Follow Up in 2017, the online delivery of the Follow Up program from April-June 2020 was our first opportunity to test them. We tested them again during the 2020/21 program year and have removed two questions that did not seem to fit with the content or outcome we were seeking nor contribute well to the combined series of questions we use to measure the global follow up outcome related to behaviour change. We would like to note that the changes required to the questions every few years are impacting our ability to have long term results data for EUREKA that are comparable over time.

#### Successes:

We learned that we can be flexible and nimble in how we deliver the EUREKA program. We can pivot to delivering within the classroom environment rather than the community if needed, and we can deliver follow up programming live online. We learned that we can still achieve program outcomes with these adaptations, although the outcomes are not as strong as in previous years.

#### Changes to be made:

We will see what the 2021/22 school year brings in terms of being able to schedule in person workshops in the community rather than the classroom, as well as in person follow up sessions. We will remain in contact with schools, marketing to teachers and reminding them what an excellent resource EUREKA is to their students, class and community. If need be, we will adjust again and deliver the content in whatever means are available.

| 3,200             |
| 750               |
| 1,100             |
| penses: \$ 57,175 |
|                   |

### Additional in kind support provided annually is estimated as follows:

| School Districts                  | \$ 4,000 |
|-----------------------------------|----------|
| Odyssey House                     | \$ 2,000 |
| Community Facilities/rental space | \$ 3,500 |
| Sunrise House                     | \$ 2,400 |

Dovonuo.

NOTES TO BUDGET: Green View FCSS is part of a broader collective that comes together to make this program possible in our region. Our external funding sources only barely cover staffing and travel expenses. All other expenses will continue to be borne by The John Howard Society. We continue to pursue additional supports for the program and are pleased to welcome a new partnership with Sunrise House in 2020/21, they will be providing loaned staffing support to EUREKA.

I believe that this should be all that you require, but if there is anything that I have missed, please let me know.

Thanks Lisa. I hope you are enjoying your summer, Penny

SUBJECT: **Delegation-SPRC (Suicide Prevention Resource Centre)** 

**SUBMISSION TO:** REVIEWED AND APPROVED FOR SUBMISSION **GREEN VIEW FAMILY AND** 

COMMUNITY SUPPORT SERVICES

**BOARD** 

MEETING DATE: December 16, 2021 GM: MANAGER: LDH **DEPARTMENT: GREEN VIEW FAMILY AND** PRESENTER: LDH

COMMUNITY SUPPORT SERVICES

#### **RELEVANT LEGISLATION:**

**Green View FCSS Policy**: N/A

#### **RECOMMENDED ACTION:**

MOTION: That Green View Family and Community Support Services Board accept the presentation from the Suicide Prevention Resource Centre, for information.

#### BACKGROUND/PROPOSAL:

Green View FCSS has supported various Suicide Prevention Resource Centers programs for over 10 years. In the 2022 grant application, the Suicide Prevention Resource Centre has requested funds to support youth mental health programming in Greenview. The "Griffon Youth Group" is offered to grades 7-12, and the "Phoenix Youth Group" is offered to grades 4-6. Programming recognizes the need for youth to learn regulation and coping skills, and to help youth gain valuable skills to help with stress, self-esteem, feelings, and relationships.

#### BENEFITS OF THE RECOMMENDED ACTION:

1. The benefit of accepting the presentation is to update the Board on services provided by the Suicide Prevention Resource Centre.

#### DISADVANTAGES OF THE RECOMMENDED ACTION:

1. There are no perceived disadvantages to accepting the presentation.

#### **ALTERNATIVES CONSIDERED:**

Alternative #1: The Green View Family and Community Support Services Board may choose not to accept the presentation for information. This alternative is not recommended for if the Board is aware of what services are being delivered and how the funds are being utilized; the Board will be well informed and better able to make funding decisions in the future.

FINANCIAL IMPLICATION:

**Direct Costs: N/A** 

Ongoing / Future Costs: N/A

STAFFING IMPLICATION: N/A

#### PUBLIC ENGAGEMENT LEVEL:

Greenview has adopted the IAP2 Framework for public consultation.

### **INCREASING LEVEL OF PUBLIC IMPACT**

Inform

#### **PUBLIC PARTICIPATION GOAL**

Inform - To provide the public with balanced and objective information to assist them in understanding the problem, alternatives, opportunities and/or solutions.

#### PROMISE TO THE PUBLIC

Inform - We will keep you informed.

Please attach additional documentation that supports your application and include work description or details, other funds source, event or program timeline, estimates, a detailed budget, expected results and benefits to the Municipality in relation to this project.

By signing this application, I/we concur with the following statements:

- \* The grant application is complete and includes all supporting documentation, including most recent financial statements based on legislative requirements of our organization, balance sheet, current bank balances and current year detailed operating budget.
- \* The grant shall be used for only those purposes for which the application was made. If the original grant application or purposes for which the grant requested have been modified by the Green View FCSS board; the grant will be used for those varied purposes only.
- The organization will provide a written outcomes report to the Green View FCSS office, along with an expense report, within 30 days of completion of the grant.
- \* The organization agrees to submit to an evaluation of the project related to the grant.
- \* The organization will return any unused portion of the grant funds to Green View FCSS or to request approval from the FCSS Board to use the funds for an optional project.

#### **GRANT INFORMATION**

#### **Total Amount Requested**

\$14,000.00

Please nate for all grant applications over \$2,500, the applicant must make a presentation to the FCSS Board.

#### **Proposed Project**

We truly appreciate all the support from FCSS Green View for our Pheonix & Gryphon Youth Groups formerly The Breakfast Club as well as our Tough Enough To Talk About It programs. Just recently, our Youth Coordinator traveled to Fox Creek to provide our 1 day workshops to youths in the area and will continue to expand delivery to organizations in the MD of Green View. Tough Enough To Talk About It has provided virtual presentations to Business Support Networks in Grande Cache and Fox Creek. Through larger corporations like Surepoint Technologies and ConocoPhilips we have reached many participants who reside in the MD of Green View areas.

We have added a new workshop called Indigenous Wellness Through the Seven Sacred Teachings which will be offered to both the Phoenix and Gryphon Youth Groups. This workshop will use a theme from the medicine wheel each week as a focus for wellness and include an introduction & story, activity & craft and close with a talking circle. This 7-week group is to empower youth to find their voices and speak to what it is they value and need for their mental well-being as well as to gain tools and valuable information from the indigenous culture.

We are asking for \$8,500 for the Phoenix & Gryphon Youth Groups and \$5,500 for Tough Enough To Talk About It.

We will continue to expand our reach to youth and adults in the MD of Green View areas to ensure that we are providing information on our programming and awareness around Mental Health matters through workshops and presentations to organizations and residents.

How will this project be preventative in nature?

Currently within our community and surrounding area there is a need for prevention and education for youth regarding mental health. The global pandemic and economic uncertainty have been challenging for everyone, especially youth, not having a regular routine, rigid limitations, and lack of connectivity. Through our programs the Phoenix and Gryphon youth groups, we provide open discussion, tools, and techniques to promote resilience and positive mental health as well as providing activities, and techniques that can be used at home among their family and peers. This includes coping techniques for big feelings, what we can do to combat negative thoughts, breathing techniques, and how to access help. We provide one day workshops and evening peer support activities both on-line and in-person, that youth can have positive interactions, learn coping techniques, and build their resiliency.

Tough Enough to Talk About It helps prevent suicide by reducing the stigma surrounding mental health, providing information about how to help, encourages frank discussions of mental health and encourages participants to recognize potential mental health issues in themselves or co-workers. Suicide is the leading cause of injury death in Western Canada. In Alberta, at least one person dies by suicide every day, and 75% are men. Tough Enough has been delivering on-line presentations to increase discussion of mental health in workplaces, particularly industry, trades and agriculture. Presentations have frequently resulted in men coming forward to ask for help, finding resources for themselves and those they act as a support to. The additional half day workshops for those in a leadership role have been well received and participants learn to safely respond to psychological health and safety hazards in the workplace and to employees impacted by mental health concerns. With a steady decline in mental health of all Canadians as reported through covid-19 restrictions and impacts, it has never been more important to support employers facing needs of their employees which had not been a leading concern in the workplace to this extent previously.

Who will be served by the project/ program and how many people do you expect will attend this event (if relevant)?

Our served area is loosely defined as the AB/BC border to Fox Creek, and Grande Cache to Fairview, though with our Tough Enough To Talk About It virtual presentations we have reached Albertans working remotely throughout the Province and across Canada.

The Gryphon Youth Group served 32 teens in 5 one-day workshops, up to 5 teens in each 4 virtual take and make group series (offered 4 times), and 23 teens took part in partnered presentations with Mountain Plains, Sunrise House, and The Pitone Youth Group. This age group is being scheduled for 8 one day workshops, 4 series of 4 friendship and support event series (combination of virtual and in-person if possible), and 2 series of 4 indigenous Cultural and Mental Health learning series in 2022.

The Phoenix Youth Group served 36 preteens taking part in 5 x one day workshops and 47 preteens participating in virtual evening sessions with wellness supports and take and make craft activities. This age group is increased to double outputs with a Day one and Day two seperate workshop. Day one will be offered 6 times, Day two (new programming) will be offered 8 times, evening sessions are scheduled for 10 sessions with the intent they will be offered virtually and in-person if restrictions allow.

Indigenous Culture and Mental Health session series was piloted in 2021 and will be delivered twice in 2022, this is a four session series in partnership with Pitiskwetan program under the Grande Prairie Friendship Centre and is only delivered on line,

In the past year due to COVID-19, we were unable to run our youth workshops from March to August 2020 and focused on virtual activities, reaching out to previous participants through social media and offering broad mental health learning to those who support youth in their capacity as a parent, coach or similar. In September, we returned to offering our youth workshops in person with reduced capacity, as well as virtual take and makes series which were well received. The youth groups on line enabled more remote, rural or those with transportation difficulties into supervised activities with peer supports fostering reduced sense of isolation and awareness of trusted adults teaching coping skills to build resiliency.

#### Tough Enough To Talk About It

In a year where many programs fought to find their place and deliver their resources, the Tough Enough To Talk About It program planted a tiny seed of hope to keep the program thriving. A seed that quickly grew and flourished, building a community where everyone can create crucial conversations within workplaces. After a lot of research and continual development of partnerships, Tough Enough launched a "virtual" workplace presentation, and a virtual supervisor training session.

Tough Enough To Talk About it served 392 individuals though virtual presentations due to the Public Health Restrictions put in place by the Government of Alberta and after this winter of amazing growth, expects to see more increases in requests and delivery through 2022.

#### How will this program benefit the community?

#### Phoenix & Gryphon's Youth Groups

Over the last 18 months, youth have gone through a number of changes and uncertainties such as switching between remote and in school learning multiple times. Not being able to be with friends, losing consistent routine, prolonged isolation, financial and health concerns of their family supports have increased their need for new and/or additional coping skills.

Our youth programing provides unique supports to all youth from those who are building resiliency to life's challenges in the future to those who are experiencing a decline in their mental well-being. Our workshops help them gain valuable coping skills, which in turn allows them to live healthy and productive lives.

#### Anecdotal Comments from parents:

"I'm so thankful for the workshop, It's not only taught him coping skills but also trying something new (the workshop) and getting out of his comfort zone can lead to good things. I will recommend this workshop to others."

"I just wanted to say that I think this is an excellent program for teens. Teens often get put on the backburner, for various reasons, and this group helps bring them to the forefront. It's a safe space for them to talk about life, learn coping strategies, and step outside of their comfort zone. I'm glad my boys were able attend!! Thank you."

#### Tough Enough To Talk About It

This program started out as Men at Risk and was renamed in 2016 to Tough Enough To Talk About it, now running for 22 years and still going strong, creating safe spaces in the workplace with open discussions and removing the stigma around mental health matters. This program delivers training to participants to recognize signs of decline in wellness in themselves and others, educate on creating conversations, delivers effective helping tools and resources for participants to use and share with family and friends.

#### Anecdotal Comments from participants:

"Continued conversations like this are really going to help us normalize mental health and feel confident in asking others how they are doing"

"This information resonated with me. It helps raise personal awareness, I now know how to get help"

"Absolutely great presentation I felt it really hit home for me and that I definitely need to be more open with my fellow coworkers about the issues I'm having and with issues they are having."

"I have now been apart of this presentation 3 times. I was invited to the County BSN when I first listened to the Tough Enough To Talk About it Presentation, then I hosted the Grande Cache BSN and listened again, then when mental health was brought up by some of the businesses of Fox Creek I just knew this is the presentation to have. Each and every time I am apart of this presentation, I pick up on something new, I learn more and am shocked of stats that I don't think I should be so shocked about but when you actually hear or see the numbers it is overwhelming. I am just in awe of this program, I think it is amazing. Hats off to you all."

How will you recognize the contribution from Green View FCSS to your organization and in the community?

We will recognize the contribution from Green View FCSS on our website, through our social media platforms, and print material. Our annual report which includes our yearly financials is provided to community members, organizations and published to our website.

How will this program be measured for success?

Our programing uses post surveys with questions based on our FCSS logic models. These outcomes are tracked and evaluated to ensure quality as well as year over year comparisons to ensure we are continuing to deliver on best practices.

#### INDEPENDENT PRACTITIONER'S REVIEW ENGAGEMENT REPORT

To the Members of Suicide Prevention Resource Centre

We have reviewed the accompanying financial statements of Suicide Prevention Resource Centre (the society) that comprise the statement of financial position as at March 31, 2021, and the statements of revenues and expenditures, changes in net assets and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian accounting standards for not-for-profit organizations (ASNPO), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Practitioner's Responsibility

Our responsibility is to express a conclusion on the accompanying financial statements based on our review. We conducted our review in accordance with Canadian generally accepted standards for review engagements, which require us to comply with relevant ethical requirements.

A review of financial statements in accordance with Canadian generally accepted standards for review engagements is a limited assurance engagement. The practitioner performs procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluates the evidence obtained.

The procedures performed in a review are substantially less in extent than, and vary in nature from, those performed in an audit conducted in accordance with Canadian generally accepted auditing standards. Accordingly, we do not express an audit opinion on these financial statements.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the financial statements do not present fairly, in all material respects, the financial position of Suicide Prevention Resource Centre as at March 31, 2021, and the results of its operations and its cash flows for the year then ended in accordance with ASNPO.

# Notes to Financial Statements Year Ended March 31, 2021

#### 1. PURPOSE OF THE SOCIETY

Suicide Prevention Resource Center (the "Society") was incorporated provincially under the Societies Act of Alberta on December 12, 2007.

The Society is a registered Charity within the rules of the Income Tax Act of Canada and is not subject to either federal or provincial income taxes. The Society files a Registered Charity Information return with the Cananda Revenue Agency annually. The Information Return can be viewed at the web site address: http://www.cra-arc-gc.ca/charities.

The mission of the Society is to prevent or reduce suicide, suicidal behaviours, and their effects by promoting positive alternatives and providing support.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Basis of presentation

The financial statements were prepared in accordance with Canadian accounting standards for not-for-profit organizations (ASNPO).

#### Cash and cash equivalents

Cash includes cash and cash equivalents. All short-term investments with maturities of one year of less at date of purchase are classified as cash equivalents.

#### Capital assets

Capital assets are stated at cost or deemed cost less accumulated amortization and are amortized over their estimated useful lives at the following rates and methods:

Leasehold improvements

Computer equipment

Website development

Promotional materials

10 years

55% declining balance method

declining balance method

5 years

5 years

The Society regularly reviews its capital assets to eliminate obsolete items. Government grants are treated as a reduction of capital assets cost.

Capital assets acquired during the year but not placed into use are not amortized until they are placed into use.

#### Revenue recognition

Suicide Prevention Resource Centre follows the deferral method of accounting for contributions which includes government grants, donations, fundraising, workshops, and special project funding.

The Society is funded primarily by the Province of Alberta and City of Grande Prairie in accordance with budget management plans and performance agreements established and approved by Ministry and/or Council. Approved operating contributions are recorded as revenue in the period which they relate and the related expenditures are incurred. Where a portion of a contribution relates to a future period, it is deferred and recognized in that subsequent period.

Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Externally restricted contributions are recognized as revenue in the period which the related expenses are incurred.

(continues)

### Notes to Financial Statements Year Ended March 31, 2021

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue from the provision of goods and services are recorded in the periods the goods and services are provided.

#### Contributed services

Volunteers contribute many hours per year to assist the Society in its service delivery activities Because of the difficulty in determining the fair market value of these contributions, they are not recognized in the financial statements of the Society.

#### Contributed materials, assets and services

Contributions of materials, assets, and services are recorded at fair market value when the amount can be reasonably estimated and when the materials, assets and services will be used in the Society's operations and would have been purchased otherwise.

#### Deferred contributions

Deferred contributions represent unspent resources and operation funding received in the current period that is related to a subsequent period.

#### Government assistance

Government assistance for acquiring fixed assets and related to expenses is recorded as deferred government assistance and is amortized on the same basis and according to the same rates as the related fixed assets or to income as eligible expenditures are incurred.

#### Income taxes

The Society is a charitable organization registered under the Income Tax Act (the "Act") and, as such is exempt from income and capital taxes under S.149 (1) (I) and is able to issue donation receipts.

#### Measurement uncertainty

The preparation of financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Such estimates are periodically reviewed and any adjustments necessary are reported in earnings in the period in which they become known. Actual results could differ from these estimates.

#### Financial instruments

The organization initially measures its financial assets and financial liabilities at fair value. It subsequently measures all its financial assets and financial liabilities at amortized cost.

The assets subsequently measured at amortized cost include cash, term deposits, prepaid expenses, and accounts receivable. The financial liabilities measured at amortized cost include trade accounts payable, deferred contributions, and long-term debt.

During the year, capital assets were acquired in the total amount of \$19,344 (2020 - \$NIL) all of which were acquired by cash.

#### 5. DEFERRED CONTRIBUTIONS

Deferred contributions represent funding received in the current year for program expenditures to be incurred in subsequent years.

|    |   | \$<br>40,000 | \$<br>-  |

#### 7. LEASE COMMITMENTS

The society has a long term lease with respect to its premises. The lease contains renewal options and Includes payment of untilities, propety taxes and maintenance costs. Monthly lease expense includes the base rates plus the common costs. Future minimum lease payments which are base amounts, as at year end are as follows:

| 2022 | \$<br>52,682 |
|------|--------------|
| 2023 | 56,445       |
| 2024 | 60,208       |

#### FUNDRAISING

Fundraising expenditures in past years were included in the entirety in the Suicide Prevention Resource Centre Society (schedule 8) due to the difficulty of allocating those expenditures to the individual programs. In the current year the Society allocated fundraising expenditures to the CORE program.

#### 9. FINANCIAL INSTRUMENTS

The society is exposed to various risks through its financial instruments and has a comprehensive risk management framework to monitor, evaluate and manage these risks. The following analysis provides information about the society's risk exposure and concentration as of March 31, 2021.

#### Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The society is exposed to this risk mainly in respect of its receipt of funds from its customers and other related sources, long-term debt and accounts payable.

#### Interest rate risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. In seeking to minimize the risks from interest rate fluctuations, the society manages exposure through its normal operating and financing activities. The society is exposed to interest rate risk primarily through its cash savings account and credit facilities.

Unless otherwise noted, it is management's opinion that the society is not exposed to significant other price risks arising from these financial instruments.

# Notes to Financial Statements Year Ended March 31, 2021

#### 10. ADMINISTRATIVE FEES

Administration fee income in Schedule 2, as well as the same amount of administration fee expense in each of the subsequent schedules, is an allocation of overhead from the main operating unit to each of the programs. It does not represent actual cash amounts received or paid by the Society, and is not reflected in the overall statement of revenue and expenditures.

#### 11. COMPARATIVE FIGURES

Some of the comparative figures have been reclassified to conform to the current year's presentation.

SUBJECT: **Delegation-Mountain Metis Association** 

**SUBMISSION TO: GREEN VIEW FAMILY AND** REVIEWED AND APPROVED FOR SUBMISSION

COMMUNITY SUPPORT SERVICES

**BOARD** 

MEETING DATE: December 16, 2021 GM: MANAGER: LDH **DEPARTMENT: GREEN VIEW FAMILY AND** PRESENTER: LDH

COMMUNITY SUPPORT SERVICES

#### **RELEVANT LEGISLATION:**

**Green View FCSS Policy**- N/A

#### **RECOMMENDED ACTION:**

MOTION: That Green View Family and Community Support Services Board accept the Mountain Metis Association presentation for information.

#### BACKGROUND/PROPOSAL:

The Green View Family and Community Support Services Board has approved funding for the operation of Mountain Metis Summer Camps since 2016. Delegates will provide an overview of the Mountain Metis Association as well as specifics on the Summer Camp funded by Green View Family and Community Support Services.

#### BENEFITS OF THE RECOMMENDED ACTION:

The benefit of accepting the report is to update the Board on services provide by the Mountain Metis Association.

#### DISADVANTAGES OF THE RECOMMENDED ACTION:

There are no perceived disadvantages to accepting the presentation.

#### **ALTERNATIVES CONSIDERED:**

Alternative #1: The Green View Family and Community Support Services Board may choose not to accept the presentation for information. This alternative is not recommended for if the Board is aware of what services are being delivered and how the funds are being utilized; the Board will be well informed and better able to make funding decisions in the future.

FINANCIAL IMPLICATION: N/A

STAFFING IMPLICATION: N/A

#### PUBLIC ENGAGEMENT LEVEL:

Greenview has adopted the IAP2 Framework for public consultation.

# **INCREASING LEVEL OF PUBLIC IMPACT**

Inform

#### **PUBLIC PARTICIPATION GOAL**

Inform - To provide the public with balanced and objective information to assist them in understanding the problem, alternatives, opportunities and/or solutions.

# **PROMISE TO THE PUBLIC**

Inform - We will keep you informed.

program timeline, estimates, a detailed budget, expected results and benefits to the Municipality in relation to this project.

By signing this application, I/we concur with the following statements:

- The grant application is complete and includes all supporting documentation, including most recent financial statements based on legislative requirements of our organization, balance sheet, current bank balances and current year detailed operating budget.
- The grant shall be used for only those purposes for which the application was made. If the original grant application or purposes for which the grant requested have been modified by the Green View FCSS board; the grant will be used for those varied purposes only.
- The organization will provide a written outcomes report to the Green View FCSS office, along with an expense report, within 30 days of completion of the grant.
- The organization agrees to submit to an evaluation of the project related to the grant.
- The organization will return any unused portion of the grant funds to Green View FCSS or to request approval from the FCSS Board to use the funds for an optional project.

#### GRANT INFORMATION

#### **Total Amount Requested**

16.000.00

Please note for all grant applications over \$2,500, the applicant must make a presentation to the FCSS Board.

#### **Proposed Project**

The Mountain Metis Nation Association (MMNA) of Grande Cache is submitting the application for funding to operate one free Youth Summer Camp in August 2022 for five days at Hide-A-Way Camp located 35 kms South of Grande Cache AB.

The purpose of the youth camp is to engage youth in activities that will support healthy social development during their adolescence years and to strengthen their essence of the community with one another. The camp is inclusive of all youth, however our target group is Indigenous Youth from the MD of Green View Cooperative and Enterprises that surround Grande Cache AB.

Since 2000, the MMNA has successfully raised funds to operate one to two free Youth Summer Camps, with the exception on 2013 due renovations and 2020 due to Covid 19. These youth camps have been noted by the Community and the Province of Alberta as being exceptional youth programming services.

Currently, no funds have been obtained to cover the cost to operate a Youth Summer Camp for 2022. The total planned cost to operate one Youth Summer Camp are set within the attached "Financial Forecast"

The Youth Summer Camp would operate at Hide-A-Way Camp which is located 35 kms South of Grande Cache AB. The camp facilities include a large kitchen with attached dining hall, public washrooms with showers and a separate handicap bathroom that is wheelchair accessible. Six heated cabins that sleep 6 - 8 per cabin and outside cooking and meeting areas. There are five lakes within hiking distance of the camp location for swimming, hiking and fishing.

How will this project be preventative in nature?

The following activities are forcasted to be delivered during the 2022 youth summer camp. Many of these activities are to encourage positive behaviours towards others and themselves. Activities forcasted are subject to change within reason depending on facilitators available to deliver.

Traditional Plants and Medicines: This workshop will include the youth being taken around the camp to learn about traditional plants and medicines to the local indigenous people who practice them.

Cultural Teachings: Jigging, is a celebrated Metis dance, we bring in a professional dance instructor who also shares her knowlege through motivational speaking on sober living. We also invite a professional fiddler to teach the youth how to play simple tunes. Other teachings may include traditional beading, bannock making and round dancing.

Group/Team Activities- Youth will be challenged in different activities where they must interact with one another that will build their teamwork, communication, problem solving and conflict resolution skills these activities create strong bonds of friendship.

Activities that may be included are prey/predator where youth must duplicate the forest animal food chain and come together to find a way to get all symbolic food and water to win. We also encourage fun activites like tug of war, capture the flag, kickball, badminton and more.

Small Field Trips - for activities such as hikes, swimming, fishing and berry picking at off site locations like Pierre Grey Lakes.

Who will be served by the project/ program and how many people do you expect will attend this event (if relevant)? The camp will be inclusive to 20 community youth who will be selected on a first come first serve basis.

This camp will cater to youth ages 10 to 17. The program will be promoted within local schools, The Youth Connections Program, Social Media Platforms, posters on local bullitin boards, and our new local newspaper in the town of Grande Cache.

How will this program benefit the community?

This camp has been proven to be beneficial for the community of Grande Cache youth, especially for those who come from low-income households. Providing them with this opportunity helps them to engage with other youth and mentors in a positive environement through a variety of fun activities that allow them to challenge themselves to grow.

The camp also provides youth with the opoortunity to learn about the Indigenous Culture through expression of music, dance, art and it strengthens youth self-esteem and provides a sense of cultural pride.

Another example of how this camp benefits our youth and our community is by the strong bonds of friendship, teamwork, communication, problem solving, and conflict reslution skills they each learn throughout the week.

How will you recognize the contribution from Green View FCSS to your organization and in the community? We will recognize Green View FCSS through promotion of the Youth Summer Camp by noting the funders on all our administrative documents such as posters, social media posts, registration forms, gear lists, and camp rules. We will also have it posted on our camp schedules, and camp menus that are hung in each cabin and the cook house at Hide-A-Way.

Articles in our Mountain Metis Nation quarterly newsletter, as well coverage through our local Community Newspaper.

At the end of camp we will send a appreciation card with a group camp picture in recognition of your generous support.

How will this program be measured for success?

We measure our success in three different ways.

- 1. Nightly journals: Youth will write in journals each night outlining their day with what they liked or disliked. This is also a safe for place them to express any issues or insecurities they may be experiencing. Its a great way to connect with each youth individually and privately.
- 2. Daily Sharing Circles: Every day everyone as a group sits together and we all express our ideas, concerns, and things we are enjoying at camp together. This is a positive way to express our feelings about our activities.
- 3. End of Camp Evaluation: At the end of camp youth are given a detailed evaluation on all the activities we completed. We use this data to measure the success of the camp as a whole.

## Green View FCSS Managers Report December 2021

During the month of November, the Community Resource Centers fielded 714 inquiries. The top reasons clients called or came in was to access Canada Revenue information and support, employment supports, and information or referral to: mental health supports; food bank; commissioner of oaths; victims assistance, technological assistance, and registration for FCSS programs.

The Community Resource Centres have seen a substantial increase assisting with Alberta Supports and Assured Income for the Severely Handicapped (AISH). For AISH alone, administration in Grande Cache assisted 18 people in their application process. Cessation of Canadian Recovery Benefit is a contributing factor to the increase in financial need we are seeing.

Two Just in Case File workshops were completed in November, one in Valleyview and one in DeBolt, with a total of 13 participants. 100% of participants indicated that as a result of the workshop, they feel better about their ability to plan ahead. This workshop is scheduled in Grande Cache on January 15 at the Eagles Nest Hall.

The Home Support program continues to gain new clients. Currently there are 42 clients in the Grande Cache area benefitting from this essential service, and 63 clients in other areas of the municipality.

Administration presented the proposed 2022 budget to council, and the interim budget was approved.

FCSS administration, along with the protective services department will be hosting a mock emergency tabletop exercise in Grande Cache on December 9<sup>th</sup>. This will provide and opportunity to flex our ESS (emergency social services) muscles!

For any Board members who are interested in attending a FCSS 101 workshop, a virtual presentation will be held on February 24 @ 6:00p.m. This workshop is geared for new Board members and will provide a general overview of the program from a provincial perspective. Please let me know if you wish to attend this presentation.

In this last meeting of the 2021 year, several delegates will make presentations regarding their 2022 funding requests. To accommodate each organization, the delegates will have only 15 minutes to present, and they will attend virtually.

The Coordinators reports are included as part of the Managers report.

I look forward to seeing you on Thursday December 16 @ 9:30.

Lisa

The total grant request for 2022 equal \$87,320.00

December 6, 2021

TO: Lisa Hannaford, Manager

FROM: Amber Hennig, Assistant Manager

SUBJECT: November 2021 Grande Cache office report

## **Assistant Manager Overview**

#### Total of all individuals assisted in September & October: 386

\*This number is the sum of clients assisted by each department (Community Resource Coordinator, Home Support Coordinator, Outreach Coordinator, and Youth Coordinator)

Great strides were made with Summitview Middle school in the month of November. Having seen the Youth Coordinator deliver the Miyo Wichitowin program in classes, faculty at the school have confirmed they want more. While the specific programs have yet to be determined for after Christmas break the Youth Coordinator will meet with faculty to discuss Green View FCSS offerings to find the right fit for the needs identified in the student body. At the time of this report the elementary school, high school and Susa Creek school are still not permitting non-school division staff on site for program delivery.

Home Support client numbers remain strong and the Meadows to Mountains Homelessness Prevention project has finished it second quarter for the 2021/2022 Rural Development Network fiscal year. Four clients were assisted in the reporting period with a little over \$7000.00 provided in financial assistance through the grant. Single parents, individuals with medical issues, and families experiencing job loss comprise those assisted. All clients are now stably housed and managing monthly expenses and one successfully exited a domestic violence environment.

A new Outreach Coordinator was onboarded in mid-November and administration has started year end review process, distributing surveys and data collection for the program summary reports.

The Empathy Program scheduled for a soft launch in November has been postponed until January 2022. The first run of the program with be delivered at the Grande Cache Municipal Library. Currently they are the only organization offering early years activities and have graciously agreed to provide us space and inclusion on their monthly calendar to increase awareness of the program. With limited venues for promotion in the community we appreciate their assistance in reaching the many families participating in their existing programs.

During the month of November, the Community Resource Coordinator spent time training the new Outreach Coordinator on front end duties. The cross training provides seamless assistance for the community in the event the coordinator is away.

Additionally, creation of promotional materials for a Did You Know campaign (social media posts) and homelessness awareness took place. The Did You Know campaign will highlight the following FCSS

services: Commissioner for Oaths, homelessness prevention, forms assistance, youth, and Canadian Volunteer Income Tax Program. Posts will be featured on both Green View FCSS Facebook pages. Educating and raising awareness about homelessness is part of the grant agreement with the Rural Development Network. The materials are aimed at increasing awareness of the Meadows to Mountains Homelessness Prevention Project and dispelling common biases related to homelessness.

#### **UPCOMING**

The Home Support Coordinator spent time with the new Outreach Coordinator providing orientation on the Home Support Program. If we are short staffed the Outreach Coordinator will be able to sub providing service to clients and preventing disruption to service levels.

One Home Support Worker resigned. Recruitment for a replacement will take place in January 2022, arrangements have been made to ensure all clients still receive coverage for December.

The Home Support Coordinator concluded Outcomes Measurement Training and has sent surveys to clients in preparation for annual reporting. COMPASS facilitator training is done however, prior to facilitating workshops the Home Support Coordinator will have to participate in a workshop. This is set to take place in January 2022.

#### **UPCOMING:**

- Home Support Worker recruitment (January 2022)
- Participation in COMPASS workshop to complete facilitator certification
- Program Summary Reports

#### **Outreach Coordinator**

The new Outreach Coordinator started in mid-November. Client needs were prioritized during his training period and assisted by other staff. As a result of this transition there is no new information to report this month.

#### **UPCOMING:**

- Client meetings
- Cooperatives and Enterprises orientation
- Agency meetings (introductions)
- Just In Case Workshop (January)
- Outreach Coordinator client survey completion
- Program Summary Report

#### **Youth Coordinator**

The Miyo Wichitowin (beading) program ran in 2 classes (grades 5 and 6) for a total of 46 students in November. Not only did Youth Coordinator receive positive feedback from the participants she was approached by two non-indigenous parents who expressed how much their child enjoyed the teachings. They appreciate the hands on learning their children received. A meeting is scheduled with two teachers from the middle school to determine the next programs to be delivered after Christmas break.

Thursdays afterschool saw 6 youth participate in another aspect of the Miyo Wichitowin program (Pow Wow dancing). Attendance remains consistent throughout the month.

The Youth Coordinator completed several trainings in November, Kids' Grief and Finding Meaning in the Mess of Grief, Bear Aware Safety, webinars through CYF Caregiver education related to anxiety and stress in youth.

The Youth Coordinator also spent time with the Outreach Worker providing an orientation Green View FCSS youth offerings.

#### **UPCOMING:**

- Safe Space Gay Straight Alliance (January 2022)
- Miyo Wichitowin (Pow Wow dancing afterschool) (January 2022)
- Miyo Wichitowin (Jingle Dancers intergenerational learning at Whispering Pines Lodge) (January 2022)
- Babysitting Course (January 2022)
- Summitview (grade 5 class program to be decided with the teacher mid-December) (January 2022)
- Mother Daughter Circles (January 2022)
- The Empathy Program

To: Lisa Hannaford, Manager From: Coordinator, Adult

Subject: December 2021 Coordinators Report

## Home Support

The Home Support program provides basic housekeeping, meal preparation, limited respite and transportation to medical appointments or other essential services. Currently there are 63 clients, 42 from the MD and 21 in Valleyview. We continue to do essential shopping for two clients, we provide weekly transportation within the town of Valleyview for 2 others and in November transportation for 6 medical appointments was provided.

## Adult Support and Referral

The Support and Referral Program supports clientele in many ways. Commonly clients are supported by finding appropriate programs or assisting with applications and or advocacy. Most of the time is spent assisting people with caregiver supports, estate paperwork, and advanced planning tasks such as doing Wills, Power of Attorney's, and Personal Directives. These can take multiple phone calls and meetings. In the month of November, we assisted 32 people with 66 different needs.

#### Workshops

A Just in Case workshop was held in DeBolt on Nov 15<sup>th</sup>, 4-6 pm at the DeBolt Centre. The workshop was full, with 6 participants. All the participants reported that as a result of the workshop they feel better about their ability to plan ahead.

### • Balance- Restorative Yoga

Balance is a restorative yoga program. This program is a support (chair) based yoga designed to restore or improve flexibility, strength, and balance. Our target participants are experiencing a reduction in these assets due to injury, illness, surgery, or hospitalization. The instructor needs to be specifically trained as to not cause further injury when working with participants that may be post-surgery, suffer from osteoporosis, arthritis, vertigo and other ails. From experience we know the program improves the participants belief in their ability to improve themselves and it has contributed to their ability to remain in their homes.

Balance has not been offered since 2019 when our past instructor relocated. We are now ready to proceed with Balance in January 2022, it will be made available to Valleyview and DeBolt residents.

## • Community Volunteer Income Tax Program (CVITP)

The CVITP program utilizes volunteers to prepare income tax and benefit returns for people with modest income and simple tax situations. Included are the 2020 stats for comparison.

| Progr               | am Incom             | e Threshold                       |
|---------------------|----------------------|-----------------------------------|
| Family Size         | Total fan            | nily income                       |
| 1 person            | \$                   | 35,000.00                         |
| 2 persons           | \$                   | 45,000.00                         |
| 3 persons           | \$                   | 47,500.00                         |
| 4 persons           | \$                   | 50,000.00                         |
| 5 persons           | \$                   | 52,500.00                         |
| More than 5 persons | \$52,500<br>addition | plus \$2500 for each<br>al person |

**Goods and Services Tax**- The GST amount is higher in 2021 than 2020 because the covid benefits collected were taxable, as a result it increased the amount of GST people were eligible for.

**Canada Child Benefit**- CCB is higher due to completing more returns with children.

Canada Workers Benefit- CWB is lower due to less people having eligible T4 income.

Climate Action Incentive- CAI has increased because the payment amount increased from last year.

**Alberta Seniors Benefit** and **Guaranteed Income Supplement**-AB Benefit and GIS increased because we assisted more seniors.

**Refunds** are the non-benefit portion of the tax refund. We see a decrease because less money was contributed to taxes, due to fewer people working. Also, many returns had an amount owing due to the covid benefits being taxable income.

Employment support numbers decreased slightly in November. 54 individuals updated and created resumes, and received support faxing, emailing and completing online applications. Clients that required use of a computer to complete online courses and orientations received assistance with setting up and completing these trainings. Often a lack of useable technology or internet is the reason that clients come in to do these trainings. However another more common reason is a lack of technical skills when dealing with the internet and online platforms. Clients often need assistance with locating these courses and orientations, and navigating throughout to become certified.

Client visits to the Resource Center regarding Income Support nearly tripled in November. 31 clients accessed the Resource Center to connect with Alberta Supports and receive coordinators assistance with emailing, faxing and phoning. Clients also came in to receive support on the computer to file their monthly Income Support report to continue receiving benefits. Alberta Supports have been extremely busy since the discontinuation of CRB. Many clients that had been receiving CRB through the CRA or while on Employment Insurance are in the process of applying for Income Support if they have not returned to work. Wait times have been up to 2 and 3 hours to speak with someone, and intake appointments then are taking another 3-5 days.

24 clients accessed the Resource Center for assistance with Service Canada needs. Clients continue to come to the Resource Center for assistance with new applications, bi weekly reporting and phone calls to Service Canada specialists.

Coordinators continue to be very busy with printing, laminating and updating residents vaccination cards. Coordinators assisted 49 residents in the month of November with this task.

Nine clients accessed the Resource Center this month to receive information and applications for Santa's Annonymous. The deadline for these applications was November 30<sup>th</sup> and recipients will receive their gifts on December 8<sup>th</sup>, corresponding with December's Valleyview Food Bank date. There were also numerous calls about donations to the Food Bank as well as individuals seeking applications and information. 18 clients accessed the Community Resource Center regarding the Food Bank.

Respectfully submitted,

Corinne D'Onofrio and Breanne Major

SUBJECT: December Youth Coordinator's Report

## **December Programming**

#### Harry Gray Elementary School

- Girls Circle Six students participating in a group program to help them with friendship, social and relationship skills.
- Boys Council Six students participating in a group program to help them with friendship, social and relationship skills.
- Body Talk Grade 5's will participate in a 4-week program learning about, anatomy, puberty, hygiene and menstruation.

## Oscar Adolphson Primary School

 Mind Up! – Grade 3's will participate in a 5-week program on ways to cultivate a positive attitude and building healthy relationships. Modules will include Choosing Optimism, Perspective Taking and Appreciating Happy Experiences.

### Ridgevalley School

 Boys Council – The grade 4 and 7 students will participate in structured programs for boys that aim to promote boys' natural strengths. They are given the opportunity to address masculine definitions and behaviors, learn about healthy relationships and positive friendships. Also, practice essential social skills.

### GSA - Gay Straight Alliance

This afterschool program allows 2+LGBTQ, two spirited, lesbian, gay, bisexual, transgender, queer and questioning youth a safe place to meet and form new friendships with like minded youth. This program runs every Wednesday from 3:30-5:30 at the Valleyview Public Library. Currently the GSA has seven regular attendees.

#### Outcomes

| Program  | # of Completed Surveys | Outcomes                          |
|----------|------------------------|-----------------------------------|
| Mind Up! | 37                     | 83% of students are better at     |
|          |                        | controlling their temper after    |
|          |                        | taking Mind UP!                   |
| SKILLS   | 37                     | 97% of students know the          |
|          |                        | warnings signs of an unhealthy    |
|          |                        | relationship after taking SKILLS. |

#### **Upcoming January Programs**

## Oscar Adolphson Primary School

- I Can Handle Anger a 6-week program where grade 2 students will learn how to handle their anger in a socially acceptable way and how to deal with difficult emotions.
- Hands are Not for Hitting a 4 week program where Grade 1 students will learn how to use their bodies appropriately when they have difficult emotions.

#### Ridgevalley School

The grade 8 class will participate in the SKILLS program. Content will include healthy
relationships, how to resist peer pressure to become sexually involved before they are ready or
able to cope with the consequences. A presentation form Northreach Centre in Grande Prairie
on STIs and contraception, dating violence and the effects of pornography on the brain.

#### Other

- Green View FCSS along with Spark Family Resource Network participated in International Day of the Child by creating hot chocolate, cookie and information packages. It was a very successful day with 18 packages given out.
- Youth Coordinator attended a meeting hosted by Valleyview Library Family Literacy to discuss
  the increase in gaps in child development and the fact that families do not know where to reach
  out to in Valleyview and area. The discussion was also on Ages & Stages Questionnaires® (ASQ®)
  and how to reach those families. ASQ has been specifically designed to pinpoint developmental
  progress and catch delays in young children—paving the way for meaningful next steps in
  learning, intervention, or monitoring.
- Youth Program Coordinator had a zoom meeting with Heather Putio, Assistant Superintendent Peace Wapiti School Division, Penny Rose, Principle Ridgevalley School, Lacy Schramm, Community School Liaison Councillor to discuss the roles of Youth Program Coordinator and Community School Liaison in the school. Will meet annually in the fall to discuss needs of school and children.
