Greenview Fire-Rescue Services Receives Donation from Keyera Corp. for Wildland Personal Protection Equipment

Valleyview, Alberta —Greenview Fire-Rescue Services (GFRS) received a \$15,000.00 donation from Keyera Corp. to assist with the purchase of wildland personnel protection equipment.

Through Keyera’s social investment program, Keyera Connects, they partner with organizations and support causes that build resiliency in the communities that they are a part of. To recognize Greenview Fire-Rescue Services for their dedication and commitment during the 2023 Alberta wildfires and for working to safeguard Keyera facilities and employees, this donation was made to assist with the purchase of crucial equipment.

“We extend our gratitude to Keyera Corp. for their generous donation as a token of support in the aftermath of the devastating wildfire season. Your commitment to the safety of GFRS members and the community is truly commendable,” stated Reeve Tyler Olsen.

Regional Fire Chief Wayne Brown commented, “I would like to thank Keyera for their donation to purchase wildland personnel protection equipment (PPE) for our firefighters. These sets of PPE will be a welcome addition to use during wildfires and for grass and brush fires that our firefighters respond to throughout the year. Keyera is not only a key player in the oil and gas industry in Greenview but is also a company that recognizes the risks to our community and does something about it. Kudos to them. “

“The safety and well-being of the communities where we operate are of utmost importance to Keyera. We are honored to support the Municipal District of Greenview’s Fire-Rescue Services by helping them acquire necessary wildland firefighting gear. This investment is a testament to our commitment to supporting the brave firefighters who risk their lives to protect our communities.” Michel Allard, Keyera Area Manager – Wapiti.
