Greenview Accepts Report for Northern Zone 4 Surface Water Management Committee

Greenview Administration is actively engaged with Birch Hills County and other municipalities to address challenges related to provincially initiated drainage systems, a legacy from when these areas were governed as Improvement Districts by Alberta's Department of Municipal Affairs. This long-standing issue concerns the ownership, management, and funding for 26 registered drainage ditches within Greenview, impacting maintenance and associated costs. To tackle these challenges collaboratively, a committee has been proposed to develop a strategy and seek provincial support. Council accepted the report on the Northern Zone 4 Drainage Ditch Committee for information, and Administration will continue to engage with the Northern Zone 4 Drainage Ditch Committee.
